DEBABELIZER<sup>®</sup> *Lite* provides an easy to use one stop graphics translation solution for raster (bit-mapped), scan, or paint files.  
THE EZ TO USE GRAPHICS TRANSLATOR

With DeBabelizer Lite you no longer have to worry about using graphics files produced by co-workers & friends. Translate images made by any paint, scanning, photo retouching, or other bit-mapped graphics acquisition or editing software. Lite intelligently maintains maximum color integrity and quality to and from each format and platform.

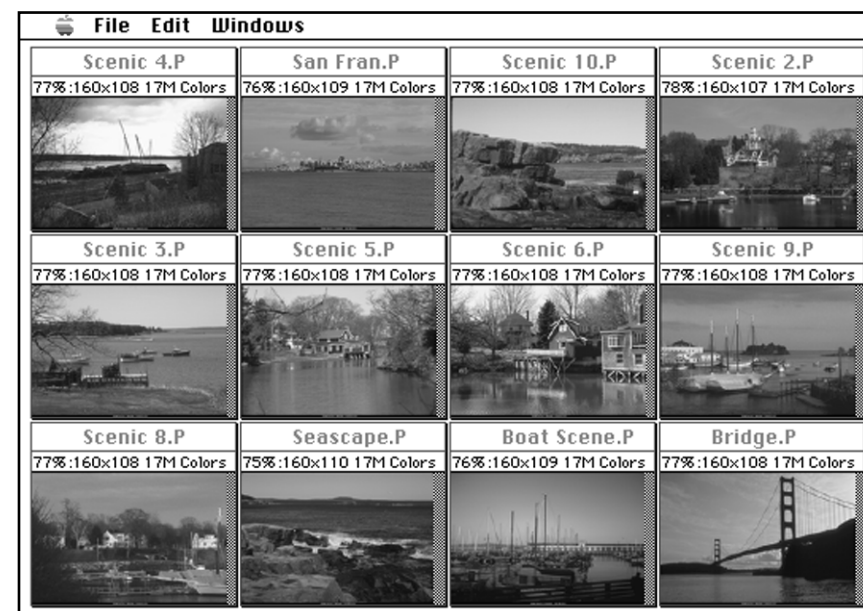

DeBabelizer Lite expands your graphics horizons by giving you the ability to utilize or translate graphics from these popular file types:
