Modified's Custom Chiller demo - control guide

This channel takes you to information about the Fuzzy Groove Multimedia label

This channel takes you to information about Modified

This channel plays the Custom chiller demo of the Chiller Killers CD-ROM just a preview of the onslaught to come

This channel takes you to information about Chiller Killers CD-ROM and how to order it - you can also run the demo from here

These red buttons let you change the sounds you're listening to - just slide your mouse over them and they'll highlight to green to signify the bank of paired samples- they're playing...

Clicking anywhere on the main screen graphics enables you to zoom the images and flick between pairs of samples

This icon quits Chiller Killers demo

The info button allows you to return to the startup screen to find out more info about Chiller Killers and other Modified titles

Clicking this button cuts everything but the backbeat

Clicking here fast forwards you to the next loop of videographics

This icon changes the background atmos track - great for re-building your mix after dropping everything but the drums

This button cuts the drums and fires up another backbeat - there are only 26 in this demo version

Clicking this icon randomly calls up a new bank of paired samples - there are only 52 in this demo version
