

## About ProView 1.3

ProView is the quickest and easiest way to create a Digital Portfolio, allowing novice and experienced Macintosh users to create professional looking portfolios, catalogues, brochures, albums, presentations and more.

Finished ProView applications may be created in minutes from display-ready digital media. Just drag and drop pictures, movies and text onto pages. Add pages and link them together using "hot spots". ProView automatically updates the "Contents" menu to include all new pages. Sounds may be attached to "hot spots" and pages.

When the project is complete, transform it into a ProViewer with one command, and this stand-alone applications may be given out and viewed on any other Macintosh.

Version 2.0 of ProView sees the introduction of compatibility with MS Windows and Win95. Design on the Mac & play on Mac or Windows!

Special price – £59 + VAT.
