Several simple navigation tools have been built into this guide to help you find the information you need:

- The area on the right side of each page has the main navigation buttons () which will take you to the primary related subjects for that page.
- Map and chart pages have an additional button ( or ) which will switch between the upper and lower halves of the page.
- The Contents button in the upper right of each page (**Contents** ) will always return you to the first page of this guide.
- In addition to the main navigation buttons, other buttons can be found in various places throughout the guide. As a general rule, any object which has a shadow can be clicked on to access additional information.

Some supplementary buttons:    **Shops**   

- Occasionally text will be **highlighted** to indicate an additional in-text link.

How to Use this Guide: Acrobat Tips

Contents 

Acrobat Reader and Exchange also provide some navigation tools:

The Go Back and Go Forward buttons can be very useful when using charts to locate items on maps. Use the Go Back button to return to your exact place in a chart after locating the item on a map.

The First Page button has the same effect as clicking on the **Contents**  button.

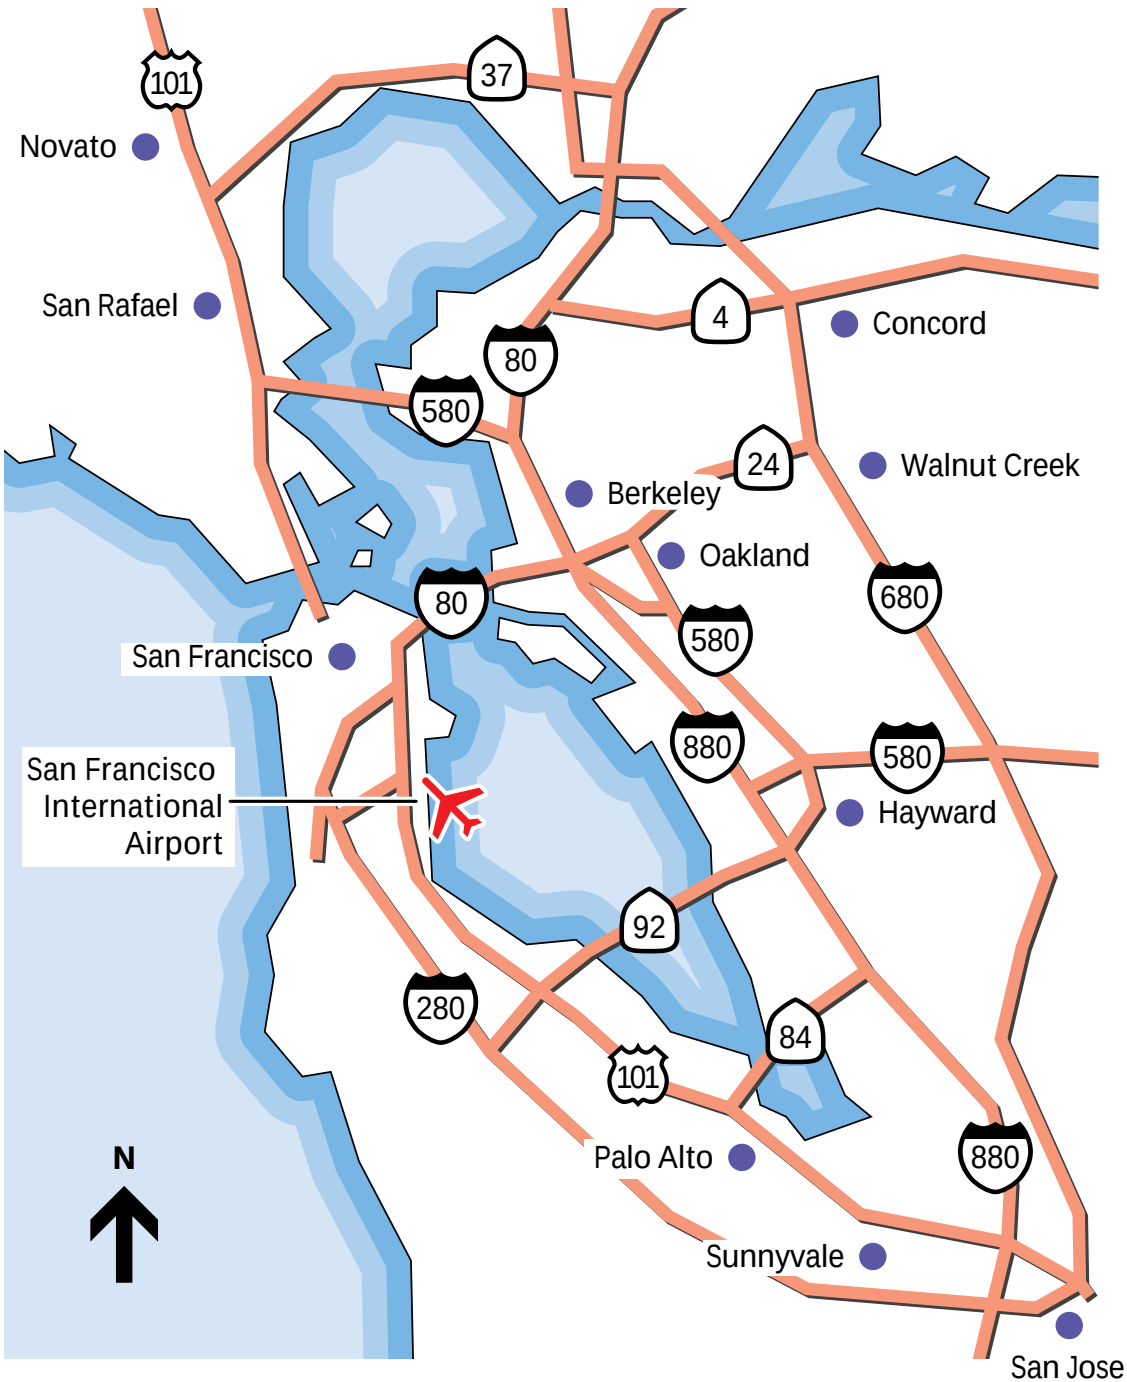

Use the Hand and Zooming tools to navigate around maps, especially when the maps have been accessed through various charts.

Remember that you can also navigate using Bookmarks and Thumbnails. They can, however, restrict the viewable page area of the guide, which may be a problem on computers with small screens (i.e. portable computers).

AIRPORT ENVIRONS: Off-airport Parking

Contents 

Several companies offer parking services in areas outside of the actual airport. These parking areas may be useful during peak travel periods when on-airport parking may not be available. Off-airport parking areas generally run shuttles to and from the airport; call for hours of operation and more information.

GROUND TRANSPORT: General Information

Contents 

There is a wide variety of ground transport available to the arriving and departing passengers at San Francisco International Airport. The terminal complex is arranged in two main levels:

- The upper level has transport services for passengers departing San Francisco for other destinations, and includes airport and parking shuttle busses, SamTrans (local public transit), **rental car** courtesy shuttles, and pre-arranged **door-to-door van services**.
- Transport services for arriving passengers are generally found on the lower level. These include **hotel shuttle busses**, a wide variety of **scheduled transport** (airporter busses, etc.), taxi service, and Greyhound bus service.
- **Rental car** and **limousine** desks are located on the lower levels of all terminals accross from the baggage carousels. Rental car courtesy vans can be picked up on the upper level islands.

Lower Level Guide 

GROUND TRANSPORT: Upper Level

The following ground transport services are available on the upper level of the terminal complex:

-  **Door-to-door Van Services** are permitted to pick up passengers on the upper level islands on a prearranged basis. You should call ahead for reservations and to arrange for a pickup.
-  **Long-term parking** can be reached using the airport courtesy shuttle buses which depart in 5–7 minute intervals (10–15 minutes from 12 midnight to 6 AM).
-  Connections between terminals and boarding areas are available through the Airport Terminal shuttle bus which departs at 5 minute intervals from 5:30 AM to 1 AM.
-  **S** SamTrans (public transit) has two stops as indicated below. SamTrans serves most of the **peninsula** in the **San Francisco Bay Area** (including the city of San Francisco) as far south as Palo Alto. Connections can also be made to CalTrain (the peninsula commuter train) for destinations south of Palo Alto.
-  **Rental Car** shuttle busses can be picked up at the center islands in front of all terminal buildings. Please refer to the signs posted on the islands to find the exact stopping point for your bus. Rental car reservation desks are located in the lower level, across from the baggage carousels in all terminal buildings.
