

LOADING MLP

1. Open the "MLP_{ro}" folder" and double click on the 'MLPro StartUp' file.
2. The MLP intro screen will appear. After a short pause, the 'Main Menu' screen will load.
3. Click on the "Load Main Help File" button to view MLP's Help file.

RECOMMENDED BEFORE USING MLP

- Select "Authors Tips" for general advice and quick tips. Also, have a look at the "Button Help Menu" which gives an overview of MLP's buttons and front-end interface.
- Check out the "What's New" option for a quick summary of any last-minute changes to MLP.

RESTRICTIONS IN MLP

Feel free to copy this 'DEMO' version for friends and work colleagues.

- You can enter up to [3] new records in each of MLP's modules.
- The ' Lyrics' module allows up to [20] new records to be entered.
