

OpenStack™ Installation - Shareware Edition

PLEASE READ THE LICENSE PROVIDED CAREFULLY BEFORE USING THE SOFTWARE. BY USING THE SOFTWARE, YOU ARE AGREEING TO BE BOUND BY THE TERMS OF THIS LICENSE. IF YOU DO NOT AGREE TO THE TERMS OF THIS LICENSE, PROMPTLY TRASH THE UNUSED SOFTWARE.

Clicking the Install button will put the recommended software on the selected disk in a folder named "OpenStack™ Folder" on the root of the disk. Customize button will let you override the recommended software by choosing exactly what will be installed. Use this option only if your are sure that you want other than the recommended software.

Use the Drive button to select the disk where you would like to install OpenStack. Click the Install button to begin the installation.

Note: Some virus-protection programs (GateKeeper, SAM, Virex, etc.) may warn you about some of the operations performed by the installer. This is normal. You should always give the installer permission to perform the requested operation. You may find it easier to disable any virus-protection programs before running the installer.

OpenStack is shareware and NOT free. This means that if you use it, you should pay a \$20 registration fee to Kagi Shareware (see the file "How To Register" for more info).
