

SCENARIOS

"Classic 1 Deck"

A 13x13-square board that is simple and quick to play. Great for a quick break from work. Uses one 52 card deck and 5 Jokers.

"Classic 2 Deck"

More of a challenge and requires more time to play. Uses two 52 card decks as well as 9 Jokers!

"Race to the End"

Start in the upper left corner and wind your way around the race track to finish. Careful with those corners! -- you could "wipe out" and bring the game to an early finish. (Which might not be a bad play if you're winning going into a curve!)

"Scrabble™ Board"

An exciting CrossCards game on a familiar board.

Why Register:

After an ample trial period, all but the first scenario are reserved for registered users. Additional scenarios created by our programmers, (and by our fans), will be available to registered users on the CD-ROM version of the game and from our website on the internet.
(WWW.FREEVERSE.COM)

Making Scenarios:

You can modify the board size, the layout of barrier and multiplier squares, the number of decks and jokers.

If you make a good one let us know!
