

KeySwapper History:

This section describes changes to each version of KeySwapper and its date of release.

version	date of release	changes
---------	-----------------	---------

- 1.0

(10/7/99)	Initial release of KeySwapper
-----------	-------------------------------

- 1.1

(10/18/99)	The caps lock disable now works properly in older desk accessories. Also added three new keys (the function keys F13-F15) for applications that use them to access certain features (newer Mac keyboards don't have them anymore!).
------------	---

- 1.11

(10/29/99)	Added support for standard delete key and the arrow keys.
------------	---
