

ImageCELS[®]

Imagine absolutely gorgeous lush tropical plants, lots of real looking people, hundreds of beautiful trees & shrubs, the latest cars & trucks, plus seamless textures of brick, grass, stone, water, wood and much more, all being part of your repertoire.

You'll love having so many meticulously edited real world images at your fingertips. *ImageCELS* will definitely save you precious time, as well as money, and improve the overall quality of your designs. Royalty-free raster imagery on CD-ROM, *ImageCELS* can be used for rendering, virtual reality, multimedia, simulation, modeling, presentations, animation or desktop publishing. Take a closer look...

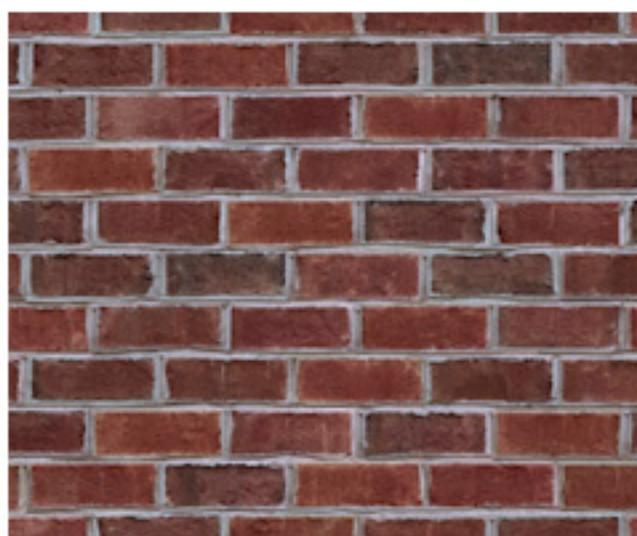

ImageCELS[®] World Wide Web

Come visit our NEW web site at www.imagecels.com for a full listing of current product information, free demos and sample imagery.

Online viewable thumbnails of all *ImageCELS* libraries let you quickly browse for the images you're looking for!
