Contents

Preface

New features in FileMaker Pro

The user interface's new look	vii
Access to menu commands	vii
Resizable dialog boxes, multiple item list selections	vii
Printing script definitions	vii
New Layout/Report assistant	viii
Other layout improvements	viii
Add a 3D look to layout objects	viii
Create custom colors and use expanded color palettes	viii
ODBC support in FileMaker Pro	viii
Microsoft Excel import and file conversion	ix
ActiveX Automation support (Windows)	ix
QuickTime	ix
Web publishing	ix
Web styles	ix
New Web Companion options	ix
View as Table	x
Improvements to value lists	x
Import script	xi
Import Update	xi
Multi-User (Hidden)	xi
Hands-on, task-oriented tutorial	xi

Lesson 1

FileMaker Pro basics

How to use this tutorial	1-1
We begin with a demonstration	1-1
We explain how it works	1-1
You build the structures	1-1
Where to find the lesson files on your hard drive	1-1
Database concepts	1-2

What is a database?	1-2
Why use a database?	1-2
How is a database organized?	1-2
FileMaker Pro basics	1-2
About FileMaker Pro modes	1-3

Lesson 2

Browsing information

Open a database and move between records	2-1
View information in different ways	2-1
See a different layout	2-2
View your layouts as forms, lists, and tables	2-3

Lesson 3

Finding and sorting records

Find records based on criteria in a single field	3-1
Find records based on criteria in separate fields	3-2
Find records that match multiple criteria in the same field	3-2
Find records that match a range of criteria in the same field	3-3
Narrow your search	3-3
Sort your found set	3-4

Lesson 4

Creating a database and entering records

Create a simple database and define fields	4-1
Look at the sample file	4-1
About field definitions	4-1
Create a database	4-2
Enter data into the database	4-2
Create the first record	4-2
Create another record	4-3
Modify data in a record	4-3

Lesson 5***Customizing what you see***

Customize your view in Layout mode	5-1
Look at the sample layouts	5-1
About customizing layouts	5-2
Customize a layout	5-2
Resize, move, and add a field	5-2
Select and resize a field	5-2
Move a field	5-2
Add a field	5-2
Display a number as currency	5-3
Add custom text to a layout	5-3
Add text	5-3
Change text size and color	5-4
Add a graphic to the layout	5-4

Lesson 6***Creating lists, mailing labels, and form letters***

Create a columnar list	6-1
Look at the sample list	6-1
About columnar list layouts	6-1
Create a columnar list	6-1
Create mailing labels	6-2
Look at the sample labels	6-2
About label layouts	6-2
Create a label layout	6-2
Create a form letter	6-3
Look at the sample letter	6-3
About form letter layouts	6-4
Create a form letter	6-4

Lesson 7***Simplifying data entry***

Enter data using value lists	7-1
------------------------------	-----

Look at the sample value list	7-1
Define a value list	7-1
Assign a value list to a field and display it as radio buttons	7-2
Generate values with a calculation field	7-3
See how calculations speed data entry	7-3
Create a calculation field	7-3
Test your calculation	7-4
Automatically enter a serial number	7-5
Look at a serial number example	7-5
Create a field for serial numbers	7-5

Lesson 8***Automating tasks with buttons and scripts***

Perform a task using a button	8-1
Look at a sample button	8-1
Create the button	8-1
Perform a series of tasks using a script	8-2
Run a script in the sample file	8-2
About scripts	8-2
Create a script to preview the Labels Layout	8-2
Assign a script to a button	8-4

Lesson 9***Creating and running reports***

Generate a report with grouped data	9-1
Look at a sample report	9-1
About subsummary reports	9-2
Create a subsummary report	9-2
Generate a report with grouped data and totals	9-4
Look at a sample report	9-4
Create a report with grouped data and totals	9-5

Lesson 10

Making databases relational

View data from one related record	10-1
See how relationships work in the sample files	10-1
About related files	10-1
Display a related record in a file	10-2
View data from a list of related records	10-3
Work with related records in the sample files	10-3
About working with lists of related records	10-4
Display a list of related records	10-4

Lesson 11

Keeping your data safe

How to back up your database	11-1
When to back up	11-1
