Microspot Modeler Install/Un-Install Instructions

Install

To install the Microspot Modeler software, simply drag the " Microspot Modeler" folder to the desired location on
your local machine.
You can then proceed to launch the Microspot Modeler application where you will be prompted to
enter your serial number. You will only be prompted for this information on first launch.

Un-Install

To un-install the Microspot Modeler software, simply drag the "Microspot Modeler" folder on your local machine
to the trash.
