

# **Alternative Icons**

## **For use with**

### **Apple Computer's QuickTime extension**

### **and related files.**

Hello there...The icons included in this folder are for use with the Apple Computer QuickTime extension, Simple Player, and QuickTime movies in general.

The icons are pasted onto folders, and can replace your current icons by just copy and pasting them via RESEDIT or through the GET INFO boxes of the files themselves.

Use them however you like, and feel free to contact me if you have any questions.

Gordon Werner
