Distribution and Legal Stuff

Cron is FREE, but if you like Cron well enough to use it, please consider sending my two little boys each a nice, crisp $1 bill. Their names are David and Willie and I love them a lot. Their address is the same as mine, which can be found in the next dialog. Please include an e-mail address if you wish to be notified of updates.

Cron may be freely distributed, so long as the application and Control Panel are distributed together, fully intact.
