

# Conferences and Message Topics

eleFinder BBSeS use conference icons to organize public discussions. You'll find message topic icons, and possibly other conference icons, in a conference. Message Topic icons are two-way containers of public messages. You can post messages to them, and use them to read messages written by others. Users can only create Message Topics in Conference folders.

- 

Click in the Post button to add a question or message to the topic.

- 

Use the Reply button to add a message to topic using the same subject.

- 

Use the arrows, By Number, By Date and From List buttons to read different messages in the topic. The

“From List” method is useful when you want to scan a topic for messages about specific subjects.

- 

The Trash icon button is active if you are able to remove the message in view.
