

## SPYROGRAPHICS PRESENTS

C BOING BOING is based on a typeface from a 50's design book - partly atomic age, partly cartoonish, McBoing Boing attempts to recreate the happy-go-lucky feeling of the late 50's/early 60's.

It is primarily a headline font, and use under 18pt is not recommended.

Watch for MCBOING BOING's companion dingbat font, "Jet Age Dingbats", coming soon...

If you find this font useful, please send the shareware fee of \$10 to:

Dan S  
1206 Topaz Wy  
Santa Maria, CA 93454

Feel free to pass this font along, but please pass along this read me with it!
