DiskStatus is free. FREE. F R E E! That's right, no ridiculous statement about how you have to send money for something you already have. You can use it all you want. I do have some other packages that have registrations (DownLine for example). So if you like my stuff, please consider registering for one of those. My goal is to hack around and provide useful, unique, bug-free (ha!) and efficient tools for Macs everywhere. If I didn't quite make it, let me know. Send bug reports, ideas, or just a "hello" to one of the following addresses:

P.O.: Eric Bloodworth, Morpheus Systems, P.O. Box 10991 Blacksburg, VA 24062-0991, USA.

Compuserve: 72607, 1472.

Internet: rri!eric@vtserf.cc.vt.edu (you can also try rri!eric@... or "rri!eric"@...)

An old guru told me to say this:

This application may be distributed by any means EXCEPT by selling or leasing either alone or as part of a package. No warranty, express or implied (whatever that means), is associated with this application. You assume all responsibility for any mishaps, direct or indirect, which occur before, during, or after the operation of this application. (In other words, I didn't do it!).
