

We are a small home-based business. We can only print in black & white & greyscale. We can however, send your pictures or other printing needs to a qualified local printer that does excellent work. Our main business is graphics to be displayed on computers.

Our printing of fliers, etc. is done on a Personal LaserWriter. While we hope one day to be able to purchase a color printer, we can do high quality printing and also can print newsletters.

Layouts & designs of menu's, fliers, etc. is available and we send it all back to you on disk for your printer to use. We can send you samples of our work, on disk in Jpeg, gif or bmp format.

Another of our services is Electronic Digests..... books, newsletters, etc. that are used and seen on the computer. This can be done by using various means, such as the program you are using now. We can include photo's and any text you wish. If you are interested, contact us for pricing and other info.
