

Version 1.0.3: October 5, 1994

Changed help dialog to copy all text if none were selected, updated pictures & help text. Added balloon help.

Version 1.0.2: July 1, 1994

ScreenMan 1.0.2 now also reads PICT files, not just resources, if the file type is PICT. Also added the functionality to suppress the confirmation dialog if the "Delete"-Button is pressed with the option-key down.

Version 1.0.1: June 8, 1993

Added the "OK" and "Copy to Clipboard" buttons to the Online-Help.
Changed the INIT-part so that the modification date of the "StartupScreen" file doesn't change at every startup. It still changes if you modify the file with the control panel.

Version 1.0: April 23, 1993

This is the first version to be released to the public.
