Additional Features And Bugs

The main aim of Notebook Maker is to allow you to create small applications containing pertinent information which you can distribute to others easily and quickly. With this in mind it is unlikely that we will entertain thoughts of any major feature additions. However, if you have some suggestions as to how we can improve the application please let us know - you never know, it may actually inspire us to add the feature if it's a good idea.

The above not-withstanding we will of course endeavour to remedy any bugs you manage to find.   Please send us your bug reports as soon as possible - see the About Notebook Maker window for the appropriate addresses to send bug reports.
