Dear Grandma,

Hi Grandma! How are you? I am fine. What's the weather like? It is raining here today, so I played inside. I learned some new words. I can say "hot" and "kittycat" and "applejuice". My other words baba, dada, gabadala didn't make it past Word's great new spellchecker and grammar checker.

Daddy taught me how to dance, want to see?

Mom said for me to tell you that Microsoft Word 5.0 has a new feature called Movie Plug-In Module. When you use this with the QuickTime™ system extension from Apple® Computer, you can playback movies in your word processing documents like this letter. I don't understand it all yet but I like to watch myself on the computer. Pretty cool huh, now we can send you letters with ME in full motion video. Hey, I have a great idea! Every time you get one of my letters you can send me a present!

Love You Grandma!

David
