

Have you ever wanted to send a letter to someone, on a disk, but you weren't sure what word processor they had? Have you wanted to put your own documentation on a disk for others to read and print without worrying about word processor compatibility? Well, now you have it: **DOCMaker™**, a winner of The 1992 MacUser® Shareware Awards!

What Is DOCMaker™?

DOCMaker™, formerly “**The DOCTer**”, is an application for the Macintosh™ which creates stand-alone, self-running document files. It features ‘scrollable’ and ‘re-sizable’ windows, graphics, varied text styles and fonts, and full printing capability. The stand-alone files are self-executing applications which you may distribute to others to read and print. No other application is required! This gives you the ability to distribute documents and information widely with no knowledge of the end-users’ Mac configuration or software.

With **DOCMaker™** you may create up to 30 separate, 32K chapters within each document. Every chapter may contain up to 20 graphics. You may name every chapter uniquely; it will appear in the Contents menu. You may add a table of contents and a find feature for the readers to quickly jump to selected sections. Each chapter may print separately. **DOCMaker™** itself, will open any TEXT file or existing **DOCMaker™** document. **DOCMaker™** will also open and convert Apple’s **TeachText** files for saving as stand-alone documents.

Several TEXT files may be added to a document by using the Append File feature so that your existing documentation may be merged into a single stand-alone document. A mail merge feature allows you to create several personalized documents automatically. **DOCMaker™** also takes full advantage of text styles including fonts, faces (bold, italics, underline, shadow and outline) and specified colors for those so equipped. You may define text styles by name and use them when you need. And

when you're done, you may add a customized "About My Product..." menu and dialog to the final stand-alone document.

DOCMaker™ is a great way to distribute information on disks, networks and bulletin board services.

Now The Business...

If you find that you may use **DOCMaker™**, please take the time to send in the shareware fee. If you really look at the public domain and shareware products available for the Macintosh™, you'll see a tremendous wealth of interesting, fun, enlightening and useful packages. Those packages would not be there if it weren't for the inquisitive and hard-working, independent 'hackers' among us who just can't see why a computer has to be difficult, or expensive, to be good.

Think how dull it would be without those DAs and small programs that fill some of the gaps among the \$195-a-shot applications. All I'm asking is TWENTY-FIVE DOLLARS (\$20.00 for the software and an extra \$5.00 to cover the price of postage, mailer and disk.) Included is an extensive user's manual file. The manual explains, in detail, every feature of **DOCMaker™**, which includes how to customize the About Dialog. What more could you ask?

Upgrades are free to registered users. If you are a registered user of **DOCter** or **DOCMaker™** and you would like to upgrade just send your original disk to **Green Mountain Software** and it will be upgraded and sent back to you.

Your shareware fee also entitles you to:

- CREATE ANY NUMBER OF STAND ALONE DOCUMENTS WHICH MAY BE DISTRIBUTED FREELY, WITHOUT ANY RESTRICTIONS, AS LONG AS YOU ARE A REGISTERED USER.
- YOU MAY INSTALL RESOURCES YOU ARE DISTRIBUTING INTO THE STAND-ALONE DOCUMENTS AS LONG AS YOU ARE A REGISTERED USER OF **DOCMaker™**. You SHOULD NOT store fonts into the stand-alone documents - this is a Macintosh restriction, not a **DOCMaker™** restriction.
- YOU MAY INCORPORATE THE CUSTOM "ABOUT" DIALOG FEATURE INTO YOUR STAND-ALONE DOCUMENTS AS LONG AS YOU ARE A REGISTERED USER OF **DOCMaker™**. (Details for using the custom About feature are provided on the official distribution disk you will receive after registering.)
- YOU MAY RECEIVE A FREE UPGRADE DISK FOR ANY NEW VERSION BY SENDING YOUR ORIGINAL DISTRIBUTION DISK TO GREEN MOUNTAIN SOFTWARE.

Chapter three of this document is a registration form. Choose ORDER FORM from the Chapters Menu or click on the popup menu at the lower left of this window to go there.

Then all you have to do is Print it, fill in the blanks and post it with your check. What could be easier than that? Not sending anything would be easier, but that's what the 'others' do. Not you, right? There are very few shareware products of the caliber of this one still available, and this one is just \$25!
