

Apple Personal LaserWriter 300

Personal LaserWriter 300 Features

Print quality

- 300 dots-per-inch (dpi) resolution
- Grayscale printing for sharp graphics
- 39 scalable TrueType fonts for printing a wide range of styles and sizes

Convenience

- Small, sleek design fits on any desktop
- Weighs only 15 lbs.
- Ideal for home use
- Easy, one-click installation

Energy efficiency

- Uses minimal power when printing
- Automatic on/off feature conserves energy

Flexible paper handling

- 100-sheet Universal cassette supports a variety of paper sizes
- Manual feed tray included for printing envelopes and other types of media
- Straight paper path for printing on heavy stock; also minimizes envelope curling

Complete solution

- No need to purchase additional memory or cables
- Comes with GrayShare software and the most popular LaserWriter fonts

Now you can have the quality and convenience of true LaserWriter printing for the price of an ink-jet printer. Designed for personal and home office use, the Apple Personal LaserWriter 300 printer delivers the sharp, clear output you need at a price you can afford.

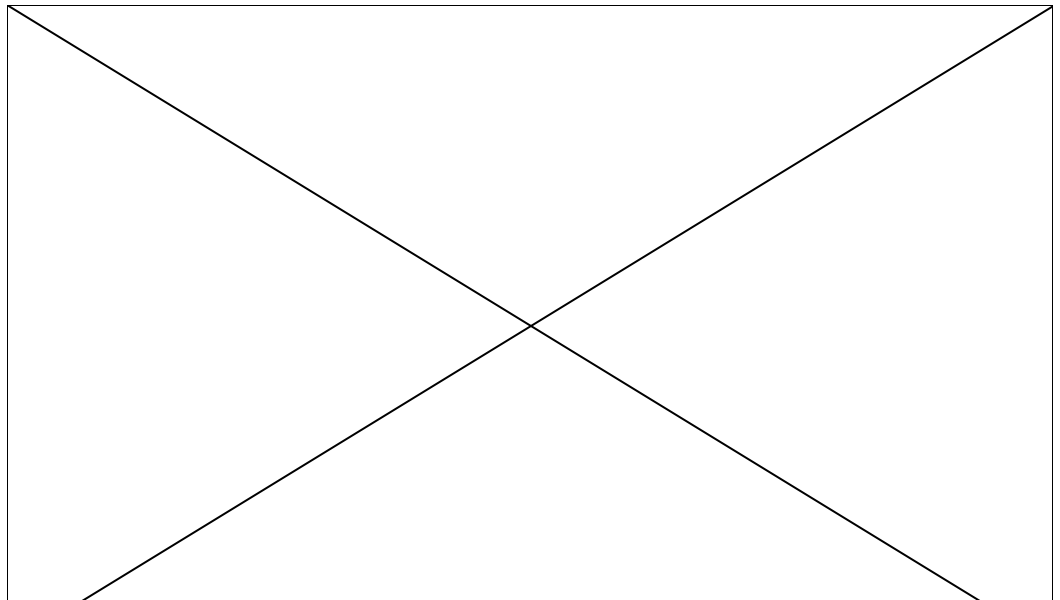

Featuring a compact, lightweight, all-in-one design, the Personal LaserWriter 300 fits easily on any desktop. It comes with 39 TrueType scalable fonts for high-quality text in a wide range of styles and sizes. To simplify printing while maximizing flexibility, it uses a standard cassette tray that can hold paper of different sizes and a manual feed tray for printing on other media. You can print on envelopes, labels, transparencies, and letterhead or plain paper.

The Personal LaserWriter 300 features GrayShare drivers software, an innovative new technology that gives you the ability to share your printer with others across a network. With GrayShare, you

can make your Personal LaserWriter 300 accessible to other users who are connected to an AppleTalk network. You always have complete control over the use of your printer; you can turn the sharing feature on or off at any time. GrayShare also delivers easy-to-use image scaling and enhanced grayscale printing capabilities for sharp graphics.

The Personal LaserWriter 300 is equipped with an automatic on/off feature that conserves energy by keeping the printer in a standby state when not in use. When a document is ready to be printed, the Personal LaserWriter 300 automatically powers up.

Everything you need to use the Personal LaserWriter 300 comes in the box. There's no need to purchase any interface cards or drivers software. Just connect it to your Macintosh, and you're ready to get started.
