INDEX_CD

1.1 INDEX

```
Index for Aminet CD-ROM  -  Public Domain
==========================================
$VER: 1.00 (28-04-1997) ©by Claudio Buraglio

This tool is like FINDKIT (on Aminet CD-ROM's) plus a browser in
Amigaguide format for your Aminet CD.

The programm is made to have a complete support of this players:

  Delitracker
  Hippoplayer
  MultiPlayer
  OctaMed Soundstudio (!!)

Of course in your system the ARexx interface must be on work.

```

Sorry for this poor document. Is incomplete.

1.2 System requirements

```
System requirements
-------------------

Amiga OS 2.0+ or OS 3.0+ to use the Prefs with MUI.

Command needed:

Path+Comando       Comment
```

```
===============    ==============================================================

sys:Rexxc/RX       To execute the control command for the players:
                   HippoPlayer, DeliTracker, MultiPlayer, SoundStudio.
c:Assign           Assign the progdir ICD:
c:Copy             Used by IndexCreator.
c:Delete           Remove the old file from destdir.
c:ED               Editor used by 'Prefs' when MUI is not present.
c:Execute          To execute the batch.
c:Info             Used by IndexCreator to find the device with Aminet.
c:Rename           Used when a module is played.
c:RequestChoice    This is the requester for the choices.
c:RequestFile      To select other destination directory.
c:Run              To execute Delitracker e the program from AmigaGuide.

...and 'sys:Utilities/AmigaGuide' .
```

1.3 Usage

```
How to make an Index.
---------------------
```

 Insert an Aminet CD-ROM on your drive an click on the 'IndexCreator' icon
 to made the index of this CD.

 Repeat this operation for every Aminet CD-ROM that you own.

```
How to use the utility.
-----------------------
```

 Now click on 'Find'   icon to search a file with a specific pattern
  or click on 'IndexCD' to browse your CD's.

```
How to configure the utility.
-----------------------------
```

 Click on Prefs icon.

 If You have the MUI a window to specify the path of yours tools is showed,
 otherwise the ED editor is used to specify the path.

1.4 History.

```
  Version 1  - 26-Feb-97
  ======================
```

  First version that work on Aminet CD-ROM.

  This is a modification of the program that I have made for the italian
  magazine+CD 'EnigmA Amiga Run' (EAR).

The support of the EAR CD-ROM's are removed (the directory tree, CD labels,
month after month, is not stable).

1.5 Author

My name is Claudio Buraglio and this program is for the Public Domain.

If you have any question my E-Mail is:

1.6 MUI - MagicUserInterface

                    This application uses

                 MUI - MagicUserInterface

             (c) Copyright 1993/94 by Stefan Stuntz

MUI is a system to generate and maintain graphical user interfaces. With
the aid of a preferences program, the user of an application has the
ability to customize the outfit according to his personal taste.

MUI is distributed as shareware. To obtain a complete package containing
lots of examples and more information about registration please look for
a file called "muiXXusr.lha" (XX means the latest version number) on
your local bulletin boards or on public domain disks.

        If you want to register directly, feel free to send

                 DM 30.- or US$ 20.-

                         to
