

## **INCOMING BOGIES. CHECK SIX.**

Combat pilots call it Situational Awareness - Tracking Bandits - Anticipating Moves - Keeping Cool. The Red Baron had it. Top Guns have it. Now **you** have it with US Navy Fighters™. You are a U.S. Navy Aviator based on the USS Eisenhower deployed in the Black Sea. Radical Russian nationalists are attempting to take over neighboring republics. All that stands in their way is your skill - and the best combat aircraft the U.S. Navy has to offer. Go vertical in close quarter dogfights, or roll in on tank columns - and watch the shockwaves as your bombs hit their targets...

### **DESIGNED BY THE BEST**
