

Revenge-seeking Mutanoids, space junk, gelatoids & glops. Egads!

Mutanoid Word Challenge...

The year: 2020. The Challenge:

Planet Earth is up to its aging elbows in junk. Out of desperation, rockets bursting with every broken appliance known to mankind are fired into space.

The Bigger Challenge:

Unsuspecting Mutanoid aliens squeeze their slimy bodies into everything from vacuum cleaners to toaster ovens. But yikes! Now their newfound homes are nothing but galactic garbage.

Vowing revenge, those whiny, wisecracking Mutanoids heave gallons of glop towards Earth.

The Solution:

To settle this unsettling dispute, you engage in the word contest of all word contests with none other than those solar slimeballs. Only you can decide the fate of the Earth.

- + Master new vocabulary in addition to 1000 of the most commonly misspelled words.
- + Develop strategies and analytical skills by combining letters to form words.
- + Play against human or alien opponents.
- + Customize your level of difficulty.
- + Includes 65,000 word on-disk Houghton-Mifflin dictionary.
- + 1993 District's Choice Award.

Most programs help kids to spell words. We teach them to communicate.
