

Full motion video screen saver for Windows, FREE!

Prevent burn-in and boredom with *MATINEE LITE*, the first full motion video screen saver for Windows.

IT'S SHOCKING!

They said it couldn't be done...but now, thanks to REVOLUTIONARY new full motion video technology, you can show video clips on your PC -- without extra hardware!

IT'S STUNNING!

Amaze your friends with your own live-action, multimedia screen saver. *MATINEE LITE* comes with 8 video clips to get you started (choose from over 250 clips, including monsters, cartoons, G-Go dancing, sports, rockets and a whole lot more on the CD version of *MATINEE*). Go wild or wacky, cerebral or serene. With *MATINEE*, you can make a new mini-movie to match every mood. Simply drag and drop your favorites from the Clip library to the video sequencer. It's that easy!

IT'S SIZZLING!

MATINEE is not just a screen saver also offers you password protection. Now you can keep your secrets secret while having fun. Plus, *MATINEE* lets you customize your display. Choose From three stylish backdrops -- watch your clips in a movie theater, in the newspaper, or on TV. Or design your own background art. Make a banana tree for your chimp. Create a haunted house for your monster. You can even add your own captions.

IT'S SEXY!

What you'll see is amazing live action right on your screen. *MATINEE* is multimedia, for everyone. So let your imagination run wild.

IT'S A SCREAM! YOU'VE GOT TO SEE IT!
