

## **Virtus WalkThrough Pro 2.0**

**Providing powerful 3-D modeling, visualization and navigational tools for creative professionals.**

Discover *Virtus WalkThrough Pro*, a powerful and intuitive 3-D visualization program that features robust modeling and editing tools, perspective-correct texture mapping, and the most effective and affordable combination of real-time 3-D rendering and "walk through" navigation available.

With our award-winning program, you can envision, create and explore any idea without leaving your PC. Build in the 2-D Design window and watch as your work is rendered instantly in an accompanying 3-D Walk window. Use picture-mapping to add realistic surface details such as doors and windows, bricks and tile landscapes - even corporate logos. At any time, use your mouse or keyboard to swiftly and fluidly navigate in, around and through your models. Your imagination is the limit!

**Virtus Corporation. Giving you real-time interactive 3-D solutions is what we do best.**

Architects, interior designers, directors and set designers, facilities planners, retail merchandisers, law enforcement professionals and multimedia authors are just a few of the professionals who will want WalkThrough Pro for building and remodeling projects, set design, product displays, crime-scene re-creation, animated presentations and more. And with Virtus Player, our new freeware publishing utility and real-time player included with WalkThrough Pro, you can share your 3-D models with clients, colleagues, friends and family who don't have Virtus software!

### **Features:**

**Object and Surface Selector** - With these two tools, you can select any object or surface - right from the 3-D Walk window.

**Smooth Shading** - This new rendering method softens the edges created when surfaces meet; the result is that the objects look much more realistic.

**Virtus Player** - This new utility, included with the WalkThrough Pro 2.0, lets anyone view (but not edit) files created with Virtus WalkThrough, WalkThrough Pro or Virtus VR.

**Publisher:** Virtus Corporation,

118 MacKenan Drive, Suite 250,  
Cary, NC 27511  
Phone: 1-800-847-8871  
Fax: 919-460-4530

**Requires:**

**PC Hardware:** 386 or higher  
**Operating System:** Microsoft Windows 3.1 or higher  
**System RAM:** 8MB  
Hard Disk required

**I'd like to install Virtus WalkThrough Special Edition. How do I do this?**

1. From your File Manager, change your CD-ROM drive and access the VIRTUS directory.
2. Find the file named INST.BAT. Click once on INST.BAT to highlight the file, now from the top left of the file manager, select File|Run.
3. In the command line box type: INST.BAT [destination drive] (the drive you would like Virtus WalkThrough Special Edition to be installed), i.e. INST.BAT C.
4. To run Virtus WalkThrough Special Edition, from File Manager find the "X":\VIRTUS directory where "x" is the drive on which you installed Virtus WalkThrough and double-click on the VWALK\_SE.EXE file with your mouse.

(See your Windows manual on how to create a program group echo and icon.)
