Graphics is the name of the game this month – there are five STB graphics cards up for grabs and 10 copies of the Micrografx Small Business Graphics and Print Studio package

**H**ere's another chance to upgrade your PC, with a heap of super graphics cards up for grabs for first and second-prize winners. And, for 10 runners-up, an impressive bundle of software that makes up the Small Business Graphics and Print Studio.

## First prize

Computer games and multimedia programs grow ever more complex and visually pleasing – the only problem is that you need to have a really good graphics card to show them off. Well, we've come to the rescue – two readers this month will win a fabulous STB Velocity 3D graphics card.

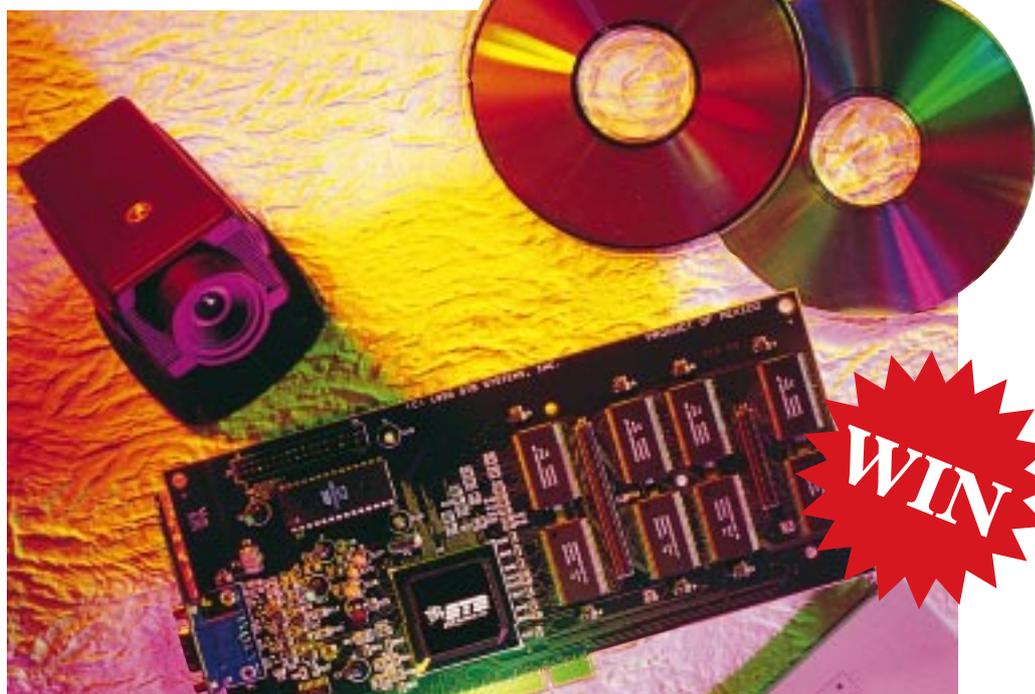

The Velocity 3D comes with a stunning 8Mb of RAM on board, so you can be sure that it's up to the most demanding tasks. And, because it can support screen resolutions to a fantastically high 1,600x1,200 pixels, you won't lack detail on your display. Under Microsoft's DirectX, the results are breathtaking. This really is a star among 3D graphics cards – you won't be disappointed.

So that you can try out the joys of your 3D card straight away, Activision's Mech Warrior 2 is thrown in for good measure.

## Second prize

Three second-prize winners will receive an STB LightSpeed 128 graphics card. This is also one of the best in its class, with an impressive 2.25Mb of RAM and it will support resolutions up to 1,280x1,024.

Along with your LightSpeed 128 comes a tempting set of games – Sierra's EarthSiege 2 and Silent

Thunder, plus TerraNova from Virgin Software. You'll find it hard to tear yourself away from your computer in future!

3. Who produces the Small Business Graphics and Print Studio?

## Tie-breaker

I need 3D from STB because...

## Runners-up

No fewer than 10 runners-up can mix business with pleasure when they open up the Small Business Graphics and Print Studio. This is a set of five Micrografx packages – Windows Draw, Picture Publisher, ABC Media Manager, ABC QuickSilver and Instant 3D.

There's enough in this bundle to help any small business produce its own advertising material and stationery, but the software is so much fun and so easy to use that any family would derive a lot of pleasure from it, too.

## How to win

Simply answer these questions and complete the tie-breaker.

1. How much memory is there on STB's Velocity 3D graphics card?
2. What screen resolution does the Lightspeed 128 support?
