

Hands On Contents

OPERATING SYSTEMS

Windows 95 286

Tim Nott sets the record straight about Microsoft's much maligned Registration Wizard.

Windows 288

Tim Nott gets stuck into the myriad games available on shareware.

DOS 292

So — what's going to happen when Windows 95 meets DOS? Simon Collin has the answers.

32-Bit 294

Chris Bidmead continues last month's FTP theme with a look at the excellent LWPFTP.

APPLICATIONS

Word Processing 298

Having trouble with unwanted carriage returns? Tim Phillips provides a remedy.

Spreadsheets 302

Stephen Wells sorts out his dates and takes a closer look at decimal places.

Databases 306

Ted Codd's 13 rules for RDBMSs explained by Mark Whitehorn.

Graphics & DTP 310

Gordon Laing approaches Windows 95 from a DTP point of view, and struggles to get his video drivers working.

Multimedia 316

Panicos Georghiades and Gabriel Jacobs make an educated guess at the forthcoming MPC Level III specification.

Sound 322

If it's serious sampling you're after, your sound card had better be up to scratch, as Steven Helstrip explains.

PROGRAMMING

Visual Programming 326

Tim Anderson has a moan about the overhead involved in the Borland or Microsoft approach.

Low Level 330

Mike Liardet continues with his investigation of motion in 3D video games.

If you want regular Windows 95 coverage, *PCW* is the place to look. In this month's Hands On, Tim Nott continues his preview of Win95, which is finally due to ship towards the end of the month.

Hands On remains the place where readers can contribute to *PCW*, and as always we'll pay for anything we use. Macros, sections of code and hints and tips will be rewarded with a £20 book or record token (please say which you'd prefer) and we'll pay hard cash for longer, more involved pieces. Please include relevant screenshots in GIF format.

All submissions should be emailed to the author of the appropriate section or snailmailed to Hands On, *Personal Computer World* Editorial, VNU House, 32-34 Broadwick Street, London W1A 2HG. Questions and short hints and tips can be faxed on 0171 316 9313.

Numbers Count 337

A prime-number problem and a Genial Gallimaufry, no less, presented by Mike Mudge.

AND THE REST...

Networks 338

Stephen Rodda on the ever-expanding mail message, and how to avoid credit card fraud.

Macintosh 342

Chris Cain improves his performance with the PowerClip from Newer Technologies, has a dig at Apple dealers, and takes on Dark Forces.

Computer Answers 346

Frank Leonhardt provides his regular forum for your PC problems, hints and tips.

Beginners 348

New to the weird and wonderful world of the PC? Eleanor Turton-Hill guides you through the shark-infested waters.
