Dateline: Early April 1997

I'm at lunch in Omaha, Nebraska. After finishing my meal I decide to call David Bowman at Softdisk to give him an update on what I'm working on. Into the discussion the subject of Tony Stuchel (the former manager of Softdisk for Windows) leaving Softdisk comes up and that they (Softdisk) are looking to fill this position with someone like me (check out Meet Softdisk to find out just who I am).

Dateline: Late April 1997

I decide that Softdisk is the best place for me to be. I call David and let him know. We make plans and 3 weeks later I arrive in Shreveport, LA. Find my way back to Softdisk (I had been to Softdisk before during a vacation once) and meet a bunch of new people and say hello to many I had met before.

Dateline: Today

Hello! As the new manager of Softdisk for Windows I hope to provide you with a monthly CD/Disk that is filled with useful and fun software, clipart, icons, fonts, and articles. I am also open to suggestions for content so if you would like to see something new on Softdisk for Windows please e-mail or snailmail me and I'll do my best to give you what you want!

If my name seems familiar its because you've seen it on my programs: Word Square, Hexanity, Relix!, and many others.
