

Meet Softdisk

by Matthew A. Hudson

Just about me.

Hi! Now that I'm the manager of Softdisk for Windows I thought I should introduce myself in my first issue. I was born in Cleveland, OH. and lived there until I was 2 when my family relocated to Portsmouth, OH. Some years later when I was 12 we moved again to Richlands, VA where I lived until a year ago when I moved to Omaha, NE and finally (hopefully!) to Shreveport, LA. I'm 24 now and have been using and programming computers since I was 9. Computers (as you might have guessed) are not just how I make a living but also my hobby. Most people think I'm crazy for owning 8+ computers, having my own personal LAN (Local Area Network), and spending massive amounts of time using them. I own several PC computers, a Macintosh IIx, Amiga 500, Commodore 128(and 64), and an Apple //e. I also have many extra machines in various states of disrepair that I use for spare parts, etc.

When I'm not using the computers I like to watch baseball, play tennis, and read science fiction novels and short stories.

You may recognize my name as I have been working with Softdisk since On Disk Monthly (now Softdisk PC) issue #70 when my first program, Poker Squares, was published. I have written around 20 programs for Softdisk PC and Softdisk for Windows since then.

Now as the Softdisk for Windows manager I hope to give you many fulfilling issues in the future.

Its been nice meeting you!
