

Hall of Fame

by Our Readers

The games and puzzles in Softdisk for Windows may contain a secret word which you only get to see if your score is high enough (or if you solve a puzzle game through to its completion). When you see the secret word, that's your cue to write it down and send it in. (You can put it on your report card, or e-mail it to sdwletters@softdisk.com.) Also include your highest score (where applicable). We will place your name, score, and any other pertinent data in this, our **Softdisk Hall of Fame**. Be sure to mention specifically what program the word was in and what issue it was on, as we've published so many things that even we sometimes have trouble keeping track of them!

In recognition of outstanding effort, amazing scores, and finding our hidden secret words we herewith announce and proclaim that the following very talented people have achieved immortality in the **Softdisk Hall of Fame**.

Super Crossword (Issue #32)

C. G. Ivey, Jr., via the Internet
