

Table of Contents

by Matthew A. Hudson

Here is a list of everything on the CD in alphabetical order. Some of these things you can access from the Softdisk for Windows shell (the program you are probably reading this in now), but some things you will have to use File Manager or Explorer to find.

Table of Contents (Feature Items)

Ancient Computing Devices (\ACD\ACD.EXE)

Please see the feature's button on the main screen of this issue for more information.

Nine Club (\NINE\NINE.EXE)

Please see the feature's button on the main screen of this issue for more information.

Poly-RC (\POLY-RC\POLY-RC.EXE)

Please see the feature's button on the main screen of this issue for more information.

Seahaven Towers Solitaire (\SOLITAIR\SOLITAIR.EXE)

Please see the feature's button on the main screen of this issue for more information.

Trivia Mania (\TMW_MM\TMW_MM.EXE)

Please see the feature's button on the main screen of this issue for more information.

Table of Contents (Bonus Item)

Battleground: Bulge (\BGA_DEMO\BGA_DEMO.EXE)

Battleground: Bulge is a strategy game based on the Battle of the Bulge campaign during World War II.

NOTE: You can install this demo from within the Softdisk for Windows program shell using the 'Install' button below. You can also run the demo from the CD-ROM by clicking 'Run'. You cannot uninstall the program from the shell.

Documents and Templates by Softdisk for Windows Staff

Almost ready-to-go documents. These are helpful templates for printing letter heads, Christmas cards, calendars, awards, business cards, and more! We've updated them for use with Windows 95 and WordPad. You can find these files in the \DOCUMENTS\ directory. NOTE: You may need to adjust the margins in WordPad for the files to display and print properly.

Table of Contents (Every Issue)

Back Issue Browser (\BROWSER\BROWSER.EXE)

The most comprehensive list of Softdisk for Windows and Softdisk PC back issues.

Clip Art (\CLIPART)

The featured clip art images for this issue. You can view them individually by dragging and dropping the image on the file QUICKART.EXE. The clip art can also be viewed from the *Enhancements* section of the issue.

Fonts (\FONTS)

The featured font(s) for this issue. There is also a program called SETUP.EXE in this folder that you may run to install the font. You can also view the fonts from the *Enhancements* section of the issue.

Icons (\ICONS)

The featured icon DLL file. You may use these fonts to spruce up your applications. See the *Enhancements* section of the issue for more information.

Install Files (\INSTALL)

This folder contains folders for each of the featured programs on the issue. In each of these folders, there is a program called SETUP.EXE which will let you install that program to your hard drive. You can also install each program via the **Install** button from within the issue.

Microsoft Video for Windows (\WINVIDEO\SETUP.EXE)

This is the Video for Windows runtime library installation program. If you are running Windows 95, you will not need to run this program. If you are running Windows 3.1 or Windows 3.11, you may need to install this program to view the opening video of the issue.

Microsoft Win 32 Drivers (\WIN32S\SETUP.EXE)

These drivers are sometimes needed for various programs on the issue. There will be an indication of this in the program text for a given program of the issue. This collection of drivers enables Windows 3.1 to run in 32-bit mode (and comes with a free game!).

Scenic Wallpapers (\SCENIC)

The featured scenic wallpapers for this issue. The wallpapers are located in specific folders according to the resolution and colors of the wallpapers. See the Wallpapers part of the *Enhancements* section of the issue for more information.

Screen Savers (\SSAVERS)

The featured screen saver for this issue. Run the SETUP.EXE program in this folder to install the screen saver to your hard drive. You can also view the screen savers from the *Enhancements* section of the issue.

Screen Saver Project (\SSP)

The featured screen saver's project file for this issue. Run the SETUP.EXE program in this folder to install the screen saver project to your hard drive. You can also view the screen saver project from the *Enhancements* section of the issue.

Shell Data Folder (\SHELDATA)

This folder contains all the information that the Softdisk for Windows issue shell needs to run. The only thing of real interest here is the /ARTICLES folder, which contains all of the articles for the issue. In this folder is a file called QUICKTXT.EXE. Drag and drop the articles (the other files in this folder) onto the QuickText program file to view the article. Press **F3** while viewing the article to print it. This is the only way to print some of the articles in the issue.

Softdisk's Greatest Hits (\PREVIEW\SOFTDISK.EXE)

This folder contains the Softdisk's Greatest Hits preview program. This program can sometimes be accessed in a special way from the issue.

Sounds (\SOUNDS)

These are the featured WAV files for this issue. You may sometimes hear some of these sounds as you move around from place to place in the issue. You can run the SETUP.EXE program to install these sounds to the proper place on your hard drive so you may use them as system sounds later. You can also sample the sounds from the *Enhancements* section of the issue.

Super Crossword (\CROSSWORD\CROSSWORD.EXE)

Super Crossword, our crossword puzzle program as well as two new crossword puzzles every issue. Super Crossword can be accessed from the Super Crossword tool bar button at the top of the main screen of the issue.

Trivia Now (\TRIVIA\TRIVIA.EXE)

Trivia Now, our trivia game. Each issue we include new trivia files for you trivia buffs out there. Trivia Now can also be accessed from the Trivia Now tool bar button at the top of the main screen of the issue.

Wallpapers (\WPAPERS)

This folder contains the featured tile and full screen wallpapers for this issue. You can run the SETUP.EXE program to install these wallpapers to the proper place on your hard drive so you may use them later as desktop backgrounds. You can also view the wallpapers from the *Enhancements* section of the issue.
