# *Locker - Software Encryptions*
## *(c) 1998, Herodion Software Solutions Ltd.*

### *About Locker*
Locker is an application that helps you guard files, of any type, from unwanted eyes. Locker guards your files by encoding them with a sophisticated coding system that gives you full proof guard.

Locker uses a security code named "Locker Key" to encrypt/lock files. To decrypt\unlock files you will have to use the same Locker Key.

This Locker Key is private & unique for any registered version of Locker.   For your information shareware version of Locker is provided with a Public Locker Key that is the same for all copies and known to all users of this version. In order to get a full-proof guard contact us.

### Locker Features:
* Locker is a unique file's encryption application designed for Windows '95/'98 users.
* A unique encryption algorithm, 64 bits , symmetric & stream encryption.
* Encryption key: 8 characters long (64 bits).
* Locker Keys types:
>    Public key - for shareware versions. (Hard coded key)
>    Private key - for the user's own protection.
>    Mail key - for safety transactions.
* Every file can be locked separately, with its own Private Locker Key.
* User's security system to provide full security against illegal users.
* Automatic identification for locked files.
* Quick opening for locked files.   A unique viewer for locked files.
* Locking files of any kind (executable, picture, document, sound, zipped etc.)
* Simple & private application, with a simple user-interface, user friendly, with on-line help to guide you.
* File's wizard for professional users.
* Locker's installer is protected from illegal copies.

### You Need Locker to...
* Secure your own files from being executed / read / viewed while they are on your hard-disk.
* Secure sensitive information on the network-server from illegal users.
* Transmitting secured E-mail.
* Transporting sensitive information (like source codes) from one point to another.
* Creating a secured environment for a group of users in a large unguarded environment.
* Keeping sensitive files on a network-server/desktop where the old-security-system failed on guarding it. Here you do not need a complete-security-system - Just Locker, who helps you to guard specific files only.
* Placing sensitive information on a web site ,when you only want that     specific group of users to be able to access them.

**(c) 1998, Locker is a product of Herodion Software Solutions Ltd. company.**

### *Locker's License Agreement*
Locker is a file's encryption application designed for Windows '95/`98 users.

Locker uses a unique security coding system that gives its owner full security against any one who tries to crack into these files.

In this security system every registered copy of Locker is provided with its own Private Locker Key. Locker also protects from illegal users by providing users with their own User-Id & User-Password.

The unregistered copies of   Locker's shareware application is provided with a Public Locker Key that is the same for all copies.

Shareware versions are only for evaluation and testing. In order to get your own private copy of Locker with your own Private Locker Key contact us at:

    Email: support@locker4u.com
   or visit our   Web Site : Http://www.locker4u.com

### License Agreement for Evaluation (unregistered) Versions
### & Registered Versions of Locker Products

</div>

You should carefully read the following terms and conditions before purchasing and using this software.

This software and the accompanying files are sold "as is" and without warranties as to performance or merchantability or any other warranties whether expressed or implied.

In particular, there is no warranty for the optional virus scanning feature (Locker does not scan for viruses).   Because of the various hardware and software environments into which Locker may be put, no warranty of fitness for a particular purpose is offered.

Good data processing procedure dictates that any program is thoroughly tested with non-critical data before relying on it.   The user must assume the entire risk of using the program. any liability of the seller will be limited exclusively to product replacement or refund of purchase price. By receiving and/or using Herodion's software, you accept the following evaluation and registered user agreement.

You may evaluate the shareware program for 30 days only. After this period this application will be expired and won't be able to use it.

You may allow other users to evaluate copies of the unregistered shareware. All evaluation users are subject to the terms of this agreement.

The evaluator/user/buyer/owner is not allowed to attempt to reverse engineer, disassemble or de-compile Herodion's software and products.

Herodion's and Locker's name and any logo or graphics file that represents our software may not be used in any way to promote products developed with our software.

All parts of Herodion's software and products are copyright protected.   No program, code, part, image, video clip, audio sample, text or computer generated sequence of images may be copied or used in any way by the user except as intended within the bounds of the single user program.

The evaluator/user/buyer/owner of Herodion's software will indemnify, hold harmless, and defend Herodion against lawsuits, claims, costs associated with defense or accusations that result from the use of Herodion's software.

Herodion is not responsible for any damages whatsoever, including loss of information, interruption of business, personal injury and/or any damage or consequential damage without limitation, incurred before, during or after the use of our products.

Our entire liability, without exception, is limited to the customers' reimbursement   of the purchase price of the software (maximum being the suggested retail price as listed by Herodion) in exchange

for the return of the product, all copies, registration papers and manuals, and all materials that constitute a transfer of ownership from the customer back to Herodion.

Each registered copy of the Herodion's software may be used in only one single location by one user.   Use of the software means that you have loaded the program and run it or have installed the program onto a computer.   If you install the software onto a multi-user platform or network, each and every individual user of the software must be registered separately. (available in the Professional version of Locker).

The sale of and/or distribution of registered copies of this software is strictly forbidden.   It is a violation of this agreement to loan, rent, lease, borrow, or transfer the use of registered copies of Herodion's software products.

## Distribution Agreement
The shareware software may be freely distributed, provided that:

1. Such distribution includes only the original archive supplied by Herodion. You may not alter, delete or add any files in the distribution archive.
2. The distribution does not include a registration number.   In particular, you may not distribute a registered piece of software.
3. No money is charged to the person receiving the software, beyond the reasonable cost of packaging and other overheads.

This Agreement shall be governed by and interpreted in accordance with the laws of the State of Israel, and the distributor hereby consents to the exclusive jurisdiction of the courts sitting in Tel-Aviv, Israel. Notwithstanding anything to the contrary, this Section shall survive termination or expiration of this Agreement
