**Notice**

This guide was developed for the course, “Visual Basic and Databases,” produced by KIDware, Seattle, Washington. It is not intended to be a complete reference to Visual Basic. Consult the Microsoft documentation that comes with your particular version of Visual Basic for detailed reference information.

This guide refers to several software and hardware products by their trade names. These references are for informational purposes only and all trademarks are the property of their respective companies.

# Visual Basic and Databases

## Contents

### 1. Introducing Visual Basic and Databases

Preview.....	1-1
Course Objectives.....	1-2
Course Requirements.....	1-3
What is a Database?.....	1-4
Where Does Visual Basic Fit In?.....	1-6
Building a Visual Basic Application.....	1-8
Structure of a Visual Basic Application.....	1-8
Steps in Developing Application.....	1-9
Drawing the User Interface and Setting Properties.....	1-9
Setting Properties of Controls at Design Time.....	1-13
Setting Properties at Run-Time.....	1-14
How Names are Used in Object Events.....	1-14
Writing Code.....	1-15
Review of Variables.....	1-15
Visual Basic Data Types.....	1-15
Variable Declaration.....	1-16
Example 1. Mailing List Application.....	1-18
Summary.....	1-25

### 2. Introduction to Databases

Review and Preview.....	2-1
Database Structure and Terminology.....	2-2
Relational Databases.....	2-3
Sample Relational Database.....	2-4
Sample Database Structure.....	2-7
Virtual Database Tables.....	2-8
Creating a Database.....	2-10
Summary.....	2-11

### 3. Database Connection with the DAO Data Control

Review and Preview.....	3-1
DAO or ADO – What’s the Difference?.....	3-2
DAO Data Control.....	3-3
DAO Data Control Properties.....	3-4
Recordset Object.....	3-5
Data Bound Controls.....	3-6
Data Bound Control Properties.....	3-6
Example 3-1. Accessing the Books Database.....	3-8
DAO Data Control Events.....	3-11
DAO Data Control Methods.....	3-11
DAO Data Control Recordset Properties.....	3-12
DAO Data Control Recordset Methods.....	3-13
DAO Data Control Recordset Navigation.....	3-14
Quick Example 1 - Recordset Navigation.....	3-15
Summary.....	3-16
Exercise 3. Northwind Traders Database.....	3-17

---

## 4. Database Connection with ADO Technology

Review and Preview.....	4-1
ADO Data Control.....	4-2
ADO Data Control Properties.....	4-3
ConnectionString Property.....	4-4
Recordset Object.....	4-5
Data Bound Controls.....	4-6
Data Bound Control Properties.....	4-6
Example 4-1. Accessing the Books Database.....	4-8
ADO Data Control Events.....	4-11
ADO Data Control Methods.....	4-12
ADO Data Control Recordset Properties.....	4-12
ADO Data Control Recordset Methods.....	4-13
ADO Data Control Recordset Navigation.....	4-14
Quick Example 1 - Recordset Navigation.....	4-15
DAO or ADO – What’s the Difference?.....	4-17
ADO Data Environment.....	4-18
Connection Object.....	4-19
Command Object.....	4-19
Quick Example 2 – Use of ADO Data Environment.....	4-20
Data Bound Controls with the Data Environment.....	4-23
Example 4-2. Drag and Drop Controls.....	4-24
Recordsets in the Data Environment.....	4-27
Quick Example 3 – Record Navigation with the Data Environment.....	4-28
DAO to ADO – ADO to DAO.....	4-30
Summary.....	4-32
Exercise 4-1. Northwind Traders Database.....	4-33
Exercise 4-2. Data Environment with Northwind Traders Database.....	4-36

## 5. Database Queries with SQL

Review and Preview.....	5-1
SQL Background.....	5-2
Basics of SQL.....	5-3
Where Does SQL Fit In Visual Basic?.....	5-5
SQL with the DAO Data Control.....	5-6
Quick Example 1 - SQL with the DAO Data Control.....	5-7
SQL with the ADO Data Control.....	5-9
Quick Example 2 - SQL with the ADO Data Control .....	5-10
SQL with the ADO Data Environment.....	5-12
Quick Example 3 - SQL with the ADO Data Environment.....	5-14
Example 5-1. SQL Tester.....	5-17
SELECT/FROM SQL Statement.....	5-23
ORDER BY Clause.....	5-25
WHERE Clause.....	5-28
Single Table WHERE Clause.....	5-29
Multiple Table WHERE Clause.....	5-32
INNER JOIN Clause.....	5-37
OUTER JOIN Clause.....	5-41
Visual Basic Functions with SQL.....	5-43
SQL Aggregate Functions.....	5-45
SQL Construction Tools.....	5-47
Building SQL Commands in Code.....	5-51
Example 5-2. Searching the Books Database.....	5-52
Summary.....	5-58
Exercise 5. Northwind Traders Database.....	5-59

---

## 6. Visual Basic Interface Design

Review and Preview.....	6-1
Interface Design Philosophy.....	6-1
Example 6-1. Mailing List Revisited.....	6-4
Visual Basic Standard Controls.....	6-5
Form Control.....	6-5
Command Button Control.....	6-6
Label Control.....	6-7
Text Box Control.....	6-8
Check Box Control.....	6-9
Option Button Control.....	6-10
Frame Control.....	6-10
Picture Box Control.....	6-11
Image Control.....	6-11
Example 6-2. Authors Table Input Form.....	6-12
Message Box.....	6-18
Example 6-3. Authors Table Input Form (Message Box).....	6-21
Application State.....	6-23
Example 6-4. Authors Table Input Form (Application State).....	6-25
Entry Validation.....	6-28
Example 6-5. Authors Table Input Form (Entry Validation).....	6-30
Input Validation.....	6-31
Example 6-6. Authors Table Input Form (Input Validation).....	6-33
Error Trapping and Handling.....	6-36
Example 6-7. Authors Table Input Form (Error Trapping and Handling).....	6-41
On-Line Help Systems.....	6-42
Example 6-8. Authors Table Input Form (On-Line Help Systems).....	6-50
Application Testing.....	6-53
Custom Controls.....	6-54
Masked Edit Control.....	6-55
Quick Example 1 – Masked Edit Control.....	6-56
UpDown Control.....	6-57
Quick Example 2 – UpDown Control.....	6-58
Tabbed Dialog Control.....	6-60
Quick Example 3 – Tabbed Dialog Control.....	6-61
Toolbar Control.....	6-62
Quick Example 4 – Toolbar Control.....	6-63
Data Bound List Control.....	6-65
Quick Example 5 – Data Bound List Control.....	6-67
Data Bound Combo Control.....	6-69

**6. Visual Basic Interface Design (continued)**

Data Bound Grid Control.....	6-70
Quick Example 6 – Data Bound Grid Control.....	6-71
Data Bound FlexGrid Control.....	6-72
Quick Example 7 – Data Bound FlexGrid Control.....	6-73
Calendar Control.....	6-74
Quick Example 8 – Calendar Control.....	6-75
Common Dialog Control.....	6-76
Quick Example 9 – Common Dialog Control.....	6-78
Additional ADO Custom Controls.....	6-80
Hierarchical FlexGrid Control.....	6-80
Quick Example 10 – Hierarchical FlexGrid Control.....	6-81
Chart Control.....	6-83
Quick Example 11 – Chart Control.....	6-84
Month View Control.....	6-85
Quick Example 12 – Month View Control.....	6-86
Date Time Picker Control.....	6-87
Quick Example 13 – Date Time Picker Control.....	6-88
Data Repeater Control.....	6-89
Example 6-9. Data Repeater Control.....	6-90
Summary.....	6-95
Exercise 6. Publisher Table Input Form.....	6-96
Build Interface.....	6-97
Add Message Box(es).....	6-101
Code Application State.....	6-102
Perform Entry Validation.....	6-103
Perform Input Validation.....	6-104
Add Error Trapping and Handling.....	6-104
Add On-Line Help System.....	6-105
Application Testing.....	6-106

---

## 7. Database Management

Review and Preview.....	7-1
Database Management with the DAO Data Control.....	7-2
Editing Records with the DAO Data Control.....	7-3
Example 7-1. Editing Records with the DAO Data Control.....	7-6
Adding Records with the DAO Data Control.....	7-13
Example 7-2. Adding Records with the DAO Data Control.....	7-15
Deleting Records with the DAO Data Control.....	7-18
Example 7-3. Deleting Records with the DAO Data Control.....	7-20
Database Management with the ADO Data Control.....	7-22
Editing Records with the ADO Data Control.....	7-23
Example 7-4. Editing Records with the ADO Data Control.....	7-26
Adding Records with the ADO Data Control.....	7-33
Example 7-5. Adding Records with the ADO Data Control.....	7-35
Deleting Records with the ADO Data Control.....	7-38
Example 7-6. Deleting Records with the ADO Data Control.....	7-40
Database Management with the ADO Data Environment.....	7-42
Editing Records with the ADO Data Environment.....	7-43
Example 7-7. Editing Records with the ADO Data Environment.....	7-45
Adding Records with the ADO Data Environment.....	7-54
Example 7-8. Adding Records with the ADO Data Environment.....	7-56
Deleting Records with the ADO Data Environment.....	7-59
Example 7-9. Deleting Records with the ADO Data Environment.....	7-61
Finding Records in a Database.....	7-63
Finding Records with the DAO Data Control.....	7-64
Quick Example 1 - Finding Records with the DAO Data Control.....	7-66
Finding Records with the ADO Data Control.....	7-67
Quick Example 2 - Finding Records with the ADO Data Control.....	7-68
Finding Records with the ADO Data Environment.....	7-69
Quick Example 3 -	
Finding Records with the ADO Data Environment.....	7-70
Modifying Records in Code.....	7-71
Quick Example 4 – Accessing Records in Code.....	7-73
Stopping a Database Application.....	7-74
Example 7-10 – Stopping a Database Application.....	7-76
Example 7-11. Authors Table Input Form.....	7-78
Additional Navigation Capabilities.....	7-79
Editing Records.....	7-81
Adding Records.....	7-85
Deleting Records.....	7-92
Stopping the Application.....	7-93

**7. Database Management (continued)**

Example 7-12. Publishers Table Input Form.....	7-94
Additional Navigation Capabilities.....	7-95
Editing Records.....	7-98
Adding Records.....	7-102
Deleting Records.....	7-105
Stopping the Application.....	7-106
Multiple Table Database Management.....	7-107
Database Keys.....	7-108
Database Modifications.....	7-109
Quick Example 5 – Editing with Multiple Tables.....	7-110
Form Navigation.....	7-112
Quick Example 6 – Multiple Forms.....	7-114
Final Application.....	7-116
Example 7-13. Books Database Management System.....	7-117
Basic Book Titles Input Form.....	7-118
Year Published Problem.....	7-125
Finding Records.....	7-128
Adding Publisher Name.....	7-133
Adding Publisher Editing.....	7-137
Modify Publishers Input Form.....	7-140
Modify Authors Input Form.....	7-145
Adding Author Names.....	7-150
Quick Example 7 – Database Detective.....	7-151
Viewing Author Selections.....	7-153
Viewing Author Names.....	7-158
Saving Author Names.....	7-162
Adding Author Editing.....	7-164
Input Control Navigation.....	7-166
Entry and Input Validation.....	7-168
Titles Form On-Line Help.....	7-173
Summary.....	7-177
Exercise 7. Take a Break.....	7-178

---

## 8. Database Reports

Review and Preview.....	8-1
Data Report Development.....	8-2
Printer Object.....	8-3
Printer Object Properties.....	8-4
Printer Object Methods.....	8-5
Printer Object Coordinates.....	8-4
Print Method.....	8-7
Graphics Methods.....	8-8
Printer Object with Databases.....	8-9
Example 8-1. Database Report with Printer Object.....	8-10
Crystal Reports.....	8-14
Quick Example 1 – Titles Listing with Crystal Reports.....	8-15
Crystal Reports Report Design.....	8-17
Crystal Reports Custom Control.....	8-19
Quick Example 2 – Displaying Titles Listing with Crystal Reports.....	8-21
Example 8-2. Database Report with Crystal Reports.....	8-23
ADO Data Environment Data Report.....	8-29
Data Report Properties.....	8-30
Data Report Methods.....	8-30
Data Report Designer.....	8-31
Quick Example 3 – Titles Listing with Data Report.....	8-33
Data Report Printing and Exporting.....	8-36
Predefined Report Fields.....	8-38
Function Fields.....	8-39
Quick Example 4 – Enhanced Titles Listing with Data Report.....	8-40
Example 8-3. Database Report with Crystal Reports.....	8-41
Summary.....	8-47
Exercise 8. Another Titles Listing.....	8-48
Visual Basic Interface.....	8-49
Printer Object Version.....	8-51
Crystal Reports Version.....	8-56
ADO Data Report Version.....	8-60

## 9. Distributing a Database Application

Review and Preview.....	9-1
Accessing Database Files in Code.....	9-2
Database File in Application Path.....	9-3
Database File Location with Common Dialog Control.....	9-4
Opening Database Files with DAO Data Control.....	9-6
Quick Example 1 – Common Dialog with DAO Data Control.....	9-7
Example 9-1. Opening Database Files with DAO Data Control.....	9-9
Opening Database Files with ADO Data Control.....	9-11
Quick Example 2 – Common Dialog with ADO Data Control.....	9-13
Example 9-2. Opening Database Files with ADO Data Control.....	9-15
Opening Database Files with ADO Data Environment.....	9-17
Quick Example 3 – Common Dialog with ADO Data Environment.....	9-19
Example 9-3. Opening Database Files with ADO Data Environment..	9-22
Assigning Icons to Your Database Application.....	9-24
Quick Example 4 - Assigning an Icon to the Titles Input Form.....	9-25
Designing Your Own Icon.....	9-26
Creating Visual Basic Executable Files.....	9-28
Quick Example 5 – Creating an Executable File.....	9-30
Building a Distribution Package.....	9-31
Visual Basic 5 Application Setup Wizard.....	9-32
Step 1. Select Project and Options.....	9-32
Step 2. Distribution Method.....	9-33
Step 2a. Directory/Media Selection.....	9-34
Step 3. Data Access.....	9-36
Step 4. ActiveX Server Components.....	9-37
Step 5. Confirm Dependencies.....	9-38
Step 6. File Summary.....	9-39
Step 7. Finished!.....	9-40
Quick Example 6 – Visual Basic 5 Distribution Package.....	9-41

---

## 9. Distributing a Database Application (continued)

Visual Basic 6 Package & Deployment Wizard.....	9-42
Step 1. Initial Information.....	9-42
Step 2. Package Type.....	9-43
Step 3. Package Folder.....	9-44
Step 4. DAO Drivers.....	9-45
Step 5. Included Files.....	9-46
Step 6. Cab Options.....	9-47
Step 7. Installation Title.....	9-48
Step 8. Start Menu Items.....	9-49
Step 9. Install Locations.....	9-50
Step 10. Shared Files.....	9-51
Step 11. Finished!.....	9-52
Final Step - Write Distribution Media.....	9-53
Quick Example 7 – Visual Basic 6 Distribution Package.....	9-54
Summary.....	9-55

## 10. Database Design Considerations

Review and Preview.....	10-1
Database Design.....	10-2
Database Modeling.....	10-3
Information Requirements.....	10-4
Table Requirements.....	10-5
Field Requirements.....	10-8
Field Types.....	10-9
Database Design Implementation.....	10-11
Building Databases with the Visual Data Manager.....	10-12
Example 10. Building the KWSALES Database.....	10-13
Customers Table.....	10-14
Orders Table.....	10-17
Purchases Table.....	10-18
Products Table.....	10-19
Database Testing and Design Refinement.....	10-20
Quick Example 1 – Test Inputs with KWSALES.....	10-21
Summary.....	10-22

---

## 11. Sample Database Projects

Review and Preview.....	11-1
Overview of Database Projects.....	11-2
Example 11-1. Weather Monitor Project.....	11-3
Weather Monitor Database.....	11-4
Weather Monitor Interface.....	11-5
Record Weather Data Tab.....	11-6
View Temperature Data Tab.....	11-16
View Precipitation Data Tab.....	11-27
Weather Monitor Printed Reports.....	11-34
Weather Data Report.....	11-34
Temperature Data Report.....	11-37
Precipitation Data Report.....	11-39
Weather Monitor Help System.....	11-41
Weather Monitor Icon.....	11-45
Weather Monitor Distribution Package.....	11-46
Suggested Improvements.....	11-47
Example 11-2. Home Inventory Project.....	11-48
Home Inventory Database.....	11-49
Home Inventory Interface.....	11-51
Navigation.....	11-54
Editing Records.....	11-56
Adding Records.....	11-60
Deleting Records.....	11-63
Entry Validation.....	11-65
Input Validation.....	11-68
Item Validation.....	11-68
Date Validation.....	11-69
Cost Validation.....	11-72
Inventory Report.....	11-73
Stopping the Application.....	11-77
Suggested Improvements.....	11-79
Example 11-3. Sales Order Form Project.....	11-80
Order Information.....	11-81
Existing Customer Information.....	11-85
Adding a New Customer.....	11-90
Product Selection.....	11-96
Submitting an Order.....	11-102
Printing an Invoice.....	11-105
Suggested Improvements.....	11-107
Summary.....	11-108

## 12. Advanced Database Topics

Review and Preview.....	12-1
Exporting Database Data.....	12-2
Opening a Sequential File for Output.....	12-3
Writing Data to a Sequential File.....	12-3
Saving a Sequential File.....	12-4
Quick Example 1 – Exporting Database Data.....	12-5
Importing Database Data.....	12-7
Opening a Sequential File for Input.....	12-7
Reading Data from a Sequential File.....	12-8
Closing a Sequential File.....	12-8
Quick Example 2 – Importing Database Data.....	12-9
Data Access Object (DAO).....	12-13
Connecting to a Database with the DAO.....	12-15
Opening Recordsets with the DAO.....	12-17
Recordset Navigation with the DAO.....	12-18
Example 12-1. Recordset Navigation with the DAO.....	12-19
Finding Records with the DAO.....	12-23
Example 12-2. Finding Records with the DAO.....	12-25
Editing Records with the DAO.....	12-27
Example 12-3. Editing Records with the DAO.....	12-28
Adding Records with the DAO.....	12-32
Example 12-4. Adding Records with the DAO.....	12-34
Deleting Records with the DAO.....	12-37
Example 12-5. Deleting Records with the DAO.....	12-39
Creating a Database with the DAO.....	12-41
Example 12-6. Creating a Database with the DAO.....	12-45
ActiveX Data Object (ADO).....	12-48
Connecting to a Database with the ADO.....	12-50
Opening Recordsets with the ADO.....	12-52
Recordset Navigation with the ADO.....	12-54
Example 12-7. Recordset Navigation with the ADO.....	12-55
Finding Records with the ADO.....	12-60
Example 12-8. Finding Records with the ADO.....	12-61
Editing Records with the ADO.....	12-63
Example 12-9. Editing Records with the ADO.....	12-64
Adding Records with the ADO.....	12-68
Example 12-10. Adding Records with the ADO.....	12-70
Deleting Records with the ADO.....	12-73
Example 12-11. Deleting Records with the ADO.....	12-75
Creating a Database with the ADO.....	12-77

---

## 12. Advanced Database Topics (continued)

Multi-User Considerations.....	12-77
Other Database Types.....	12-78
Summary.....	12-79
Exercise 12. The Final Application.....	12-80

This page intentionally not left blank.
