2007 INS ANNUAL MEETING CD-ROM

The 2007 Spring National Academy of Infusion Therapy, Annual Meeting & Industrial Exhibition, produced exclusively for the professional Infusion Nurse, delivered six days of unique educational programs, resources, ideas and insights. This year, many infusion professionals came together for a dynamic line up of educational sessions to include concurrent General Sessions, Abstract Presentations, Industrial Showcases, and a special 5 hour Focus Track on Peripherally Inserted Central Catheters (PICCs).

As one of many attendees stated, “***The programs were top-notch, the speakers excellent and the organization superb. This is the Annual Conference not to be missed!***”

Even if you couldn't join INS in Orlando, here's your chance to be part of this event! This interactive CD-ROM package offers all of the programming — and all of the available slides!

We're confident that this convenient CD-ROM program will help you improve your nursing skills and expand your technical and business knowledge. Please enjoy the 2007 INS Annual Meeting CD-ROM, compliments of Roche.

ABOUT ROCHE

Hoffmann-La Roche Inc. (Roche), based in Nutley, N.J., is the U.S. pharmaceuticals headquarters of the Roche Group, one of the world's leading research-oriented healthcare groups with core businesses in pharmaceuticals and diagnostics. For more than 100 years in the U.S., Roche has been committed to developing innovative products and services that address prevention, diagnosis and treatment of diseases, thus enhancing people's health and quality of life. An employer of choice, in 2006, Roche was named one of the Top 20 Employers (Science magazine), ranked the No. 1 Company to Sell For (Selling Power), and one of AARP's Top Companies for Older Workers, and in 2005, Roche was named one of Fortune magazine's Best Companies to Work For in America. For additional information about the U.S. pharmaceuticals business, visit our websites: www.rocheusa.com or www.roche.us.
