

Interactive erotic XXX adultcade pc game

Sit back and enjoy the feeling of your cyber Lamborghini flying towards the Sex Arcade planet! Once you have arrived, the gate opens to let you enter in the fully 3D rendered 360° environment of this hard-core Sex Arcade Palace!

Private Porntris has 3 addictive erotic games

Erotic Porntris - its the hard-core version of the well-known game. Different blocks are falling down and you need to move, rotate and drop them to make full lines. You don't get any points, but... you get to see the beginning of a hard-core movie line-by-line. If you succeed to clear the entire screen, you get to see the full movie.

Erotic face tris - instead of falling blocks, you are confronted with coloured falling duo-smiles :) :) Get minimum 4 smiles together of the same colour and you will get rewarded...

Erotic BubbleTris - shoot minimum 3 bubbles of the same colour together and they will disintegrate and show you more and more of a hot exiting movie.

We even have a cheat for you on this hot hot disc!

To view the more than 550 MB of hard-core movies featured on the disc just go to the CyberViewer to see ALL the movies without having to play one single game!

This is a PC/Windows game only!
