

The letters keep rolling in. You love Private's Triple X series, and Volume 9, in its very compact, seven-scene, 91-minute format, will be no exception.

Stunning, breathtakingly beautiful and impossibly hot, these scenes (shot in Switzerland, Spain and France) feature some of Private's newest and most sexually uninhibited finds.

For example, a nice-looking, short-haired brunette has no trouble sucking cock on a Swiss ski lift. Right on the mountain, she gets fucked by three studs, gets her asshole screwed, and enjoys several positions of double-penetration before eating cum from three dicks!

A five-way anal humping gets really nasty with double double penetration and three cum blasts (watch the girl who loves to eat it up!).

A tennis referee gets his racket sucked in a three-way fucking, anal scenario that ends with a pretty female face accepting two loads of sperm. This is a must for fans of explicit quality!
