

3.2 System Administration Release Notes: Contents

With every release of its software, NeXT provides notes containing information pertaining to the release. The notes accessed through this file apply to Release 3.2. Additional notes may also appear in the *Release Notes* book shipped with the software.

The various files containing release notes for network and system administrators are listed below. These files are in the ^aRelease Notes^o target of the **NextAdmin** bookshelf (in the directory **/NextLibrary/Bookshelves**), and are located in:

`/NextLibrary/Documentation/NextAdmin/ReleaseNotes`

To open a file in Edit, click the button next to its title in the list below.
