

Software Redistribution Information for the Sample Code

The following list describes the Apple Software on the Companion CD ROM, that Licensees of the Companion CD may redistribute:

- Licensees may modify and incorporate into their own programs and distribute (in object code form only), solely with their own programs, the Apple software contained in a) the FreeHTML and FreeMovies folders that are located with in the MacRedistributable folder, and b) the FreeHTML and FreeMovies folders that are located within the WinRedistributable folder.

Except as expressly permitted above, Licensees may not redistribute the Apple Software.

If you wish to redistribute any Apple Software other than those items listed above, including but not limited to the QuickTime installers, contact Apple's Software Licensing Department at the following address for further information:
