Children's

Barnyard Ark
by Conrad Weiler
Learn about endangered livestock animals with this HyperCard stack. Review descriptions and pictures of animals including the Milking Devon Cattle, the Domestic Bronze Turkey and more. There is a quiz after every few animals to test what you have learned. You can even print your test results.

Boulder
by Jason Gallicchio
Push blocks around the warehouse in this Sokoban-style game. Each level contains a group of blocks, and you must push them into the correct places. You'd better think ahead — it's easy to get trapped, or to move blocks into spaces where you can't get them out. If you make a mistake, you can restart the level.

Professor Duck's Western Europe Quiz v2.2
by Eric Holsen
Test your knowledge of Western Europe. Identify countries and their capitals. If you make a mistake, you can start over at any time. Check your score any time and print your quiz results.

SnakeByte
by Jason Gallicchio
You're a snake and you're trapped in a room. You have to eat all of the balls to get out. Every time you eat a ball you grow longer. Watch out — a bad snake and other obstacles try to stop you!

Time Instructor v1.0
What time is it? Learn to tell time on an analog clock. If you choose the correct time, the program announces the time — in English or Spanish. If you're wrong, you get to try again. Change the level of difficulty.
