Vector Cross Product Table

		i	j	k	
	Vector 1	3	1	1	<- Enter Vectors here
	Vector 2	-4	3	1	
			Answer below		
	Resultant	-2	-7	13	

You can set up a spreadsheet to automate what would otherwise be time-consuming tasks				
In this example, the calculation is used frequently in Physics				
Decide whether the calculations you do often would be more efficiently done				
	in the spreadsheet
