Hamlet

by Mark Zimmerman

“To be, or not to be?” Read the complete text to William Shakespeare’s Hamlet. This HyperCard stack is arranged by scene to make it easy to read. Copy text directly from the stack and paste it into other documents. Search for any text, add bookmarks and take notes on any page.

LifeLab v3.0

by Andrew Trevorrow

Investigate two-dimensional cellular growth in this laboratory program. Place cells on a grid and see how they survive. A cell is born if an empty square has exactly three live neighbors. It dies if it has less than two or more than three live neighbors. Hundreds of sample files get you started.

SchoolStat v2.0.8

by David Darby

Analyze and graph data with this statistical analysis program. Enter your data in a spreadsheet format and analyze it using many functions, including linear regression, confidence intervals and more. Plot data using a variety of graph formats, like pie charts, histograms and linear plots. Perfect for anyone studying statistics.
