

# BUSINESS SRI

## AgendaMaker v2.1

by Kurt Swasing

The ultimate personal organizer! This comprehensive program integrates notebook, task, calendar, alarm, mail, messaging and conferencing functions into one application. Create tasks and assign them to projects — give them priorities and report their status. Contains a sample file to get you started.

## Asset Basset v1.0

by Ben Sharvy

Keep track of your valuable assets. For each asset, view important information like the capital gains, the potential capital gain left in the investment and the total profit to date. Define portfolios composed of your investments and track portfolio performance. Even generate annualized reports.

## CalcWorks v1.5.0

by John Brochu

This program really adds up! This calculator features a complete set of scientific functions, conversion utilities and more. Calculate in binary, octal, decimal and hexadecimal. Figure time in minutes and seconds. Review a menu with important constants, like Avogadro's number and Planck's Constant. This is the only calculator program you'll ever need.

## Postage \$aver v2.0.3

by L. Scott Hochberg

It's in the mail. Sort mail according to U.S. Postal Service requirements for third-class bulk mail. After scanning a text file of addresses, it produces a complete report. Determine composition of all mail packages and mail sacks, piece counts and postage costs. Create a file containing sort keys by sack and package, along with postal endorsement lines for printing on address labels or envelopes.

## QuickSHIP v5.04

by Copperhead Software

This is a full UPS manifest system with manifests and labels that have been approved by United Parcel Service. It works as a fast shipping charges calculator and it is a complete computer manifest system that handles both domestic and international UPS shipping. It also allows you to fill out, store and print short form Bills of Lading for trucking companies.

## QuickTEXTBILL v1.28

by Copperhead Software

This is an ultra simple invoicing/Bidding/Accounts Receivable program. It was designed to

allow small service firms, contractors and other independent providers of services, such as consultants, a quick and easy method of keeping track of sales, bids and accounts receivable. QuickTEXTBILL was created for those who want to effectively manage their billing without dedicating their lives to this activity
