Deco v1.0
by Karl Bunker
Quick reflexes and strategic planning are required to master this Tetris-style arcade puzzle. Instead of rotating pieces, you rotate the game board. When falling tiles have the same color, they disappear. If colors don't match, tiles become permanent pieces to the game board. Complete the level before the entire board fills up.

Exile II: Crystal Souls v1.0.1
by Jeff Vogel
Explore the world of Exile in this fantasy role-playing game. Control a group of six characters as they battle monsters, collect loot and save the world. This game features more than 100 towns and dungeons, multiple characters with and challenging puzzles to solve. Provides hours of adventure.

Monte Carlo Solitaire v1.0.1
by InterStellar Software
Enjoy this simple solitaire game. Remove all adjacent pairs of cards from cards arranged in a 5 by 5 grid. When you remove all pairs, fill the spaces with more cards. Your goal is removing all the cards in the fewest possible number of deals.

Renegade Space Ninja v1.0
by Phil Stroffolino
Battle in hand-to-hand combat with this galactic fighting tournament. You are one of six fighters. Choose your own characters, fighting technique and secret moves. Challenge a friend or play against the computer. Are you up to the test?
