

# DESKTOP PUBLISHING

## GifScan 2.0

### Simplifies Web design

Automatically generate HTML code for your Web pages with this excellent utility. Simply drag 'n drop GIF images onto this pro-gram's icon and it generates the code for you. It even generates the HTML links! You can copy this information to your Clipboard or save the document.

- Add headers and footers
- Convert Netscape Bookmarks to full URLs
- Preferences control output

(Application by Marc Boon)

## HTML Editor 1.1.4

### Create Web pages

This excellent HTML editor is ideal for anyone creating home pages. Create your own Web site by choosing options from a button menu interface.

- Choose between relative and absolute paths for your documents
- Supports find and replace
- Online documentation
- Export to DOS or UNIX formats

(Application by Rick Giles)

## Magic Bullets

### Text formatting utility

Edit your documents quickly with this complete text formatting utility. Copy your text, choose from several formatting options and then paste the new copy back into your documents. It's a great E-mail companion.

- Remove white space
- Create custom length columns
- Hot key access
- Create bulleted lists

(Extension by Bill Karsh)

## Feature Program

### Myrmidon 1.0.3

### Exquisite printing tool

This printing extension adds several functions to your system. It converts documents to HTML when you print. You can also print each page of a multiple-page document to different printers — or even different paper trays on the same printer.

- Extract address info to print envelopes
- Create and send E-mail from any program
- Print to multiple printers and faxes at the same time
- Create custom definitions of printers to handle multiple tasks

(Extension by Terry Morse)

Plasm-O-Matic 1.0

Amazing patterns

This program uses simple mathematical algorithms to create beautiful and colorful images, called Plasmas. Change the algorithm to create different patterns.

- Choose the starting iteration
- Control the number of iterations
- Use as a screen saver
- Create Dark Plasmas

(Application by Christopher Lee Chin)

## CLIP ART

Bright Ideas® Clip Art

a Software of the Month Club® exclusive!

(Clip art by Bright Ideas®)

David's Shareware Textures

Web textures

This great collection of textures and patterns is great for anyone designing Web pages. Each one tiles seamlessly to give you interesting backgrounds. Provided in GIF format, they are ready to use.

(Clip art by David McLaughlin)

20 Krazy Kids

Cool children

This fantastic collection of 1940s style clip art features the antics of 20 crazy kids, including kids reading, playing horse and a kid dressed as a knight. These images are provided in black-and-white EPS format.

(Clip art by  
Havana Street)

# FONTS

## Animal Dingbats

### Wild dingbats

Choose from an assortment of several animal silhouettes in this dingbat collection. Most of the animals correspond with the letter keys. Use your Option key to have them face the opposite direction.

(Font by Michael Boyle; Type 1)

## Hermia

### Gothic small caps

This gothic type has dynamic overtones. Each lowercase is in small caps.

(Font by Scriptorium; TrueType)

## Pfeiffer Tall

### Elegant sans serif

Add a touch of elegance to your documents with this slender sans serif. It works well as condensed body text and dynamic headlines.

(Font by Martin P. Pfeiffer; TrueType)

## Tragliatella

### Ancient communication

This unusual typeface is actually a series of pictograms of various ancient images, including mazes and hiero-glyphs. It adds primeval mystery to your designs.

(Font by Nikos Goulandris; TrueType)
