# LATEST & GREATEST

Address Book 3.7.1
Your own yellow pages
This comprehensive program meets all your address book needs. Create multiple address books, and print information to a variety of cards and envelopes.
• Dial phones
• Search through all fields
• Input comments
(Application by Jim Leitch; Requires a modem to dial phone)

Formula Club 5.0
Scientific program
This is an excellent study aid for science students. Learn the periodic table, chemical formulas and symbols. Several exams test your knowledge on different topics.
• Symbols: enter a symbol when a chemical name is displayed
• Names: enter a name when a symbol is displayed
• Plus formulas
(Application by Boomeria Softworks)

HTML Editor 1.1.4
Create Web pages
This excellent HTML editor is ideal for anyone creating home pages. Create your own Web site by choosing options from a button menu interface.
• Choose between relative and absolute paths for your documents
• Supports find and replace
• Online documentation
• Export to DOS or UNIX formats
(Application by Rick Giles)

Feature Program
Lab-Rat 2.0
Educational arcade
This shoot 'em up arcade game has an educational twist. Every time you clear a level, you must answer a question to progress to the next level.
• Create your own question sets with the Question Editor
• Track high scores for each question set
• 3D graphics and a cool soundtrack
(Application by Enrique O. Guerrero, Jr.)

LoanPro 2.0
Financial tools

Calculate your loan information with this set of financial tools. Enter key data — such as payments, amount borrowed and loan terms — and find the missing value.
• Extensive help
• Easy data entry
• Display payment schedules and loan comparisons
(Application by Real Mac Solutions)

MacChess 2.5
Checkmate!
Check out this beautiful chess program. Challenge a friend or compete against the computer. Complete with special features for advanced players.
• Save and analyze games
• Track game moves
• Configure game setup
(Application by W.A. van Beusekom)

Plasm-O-Matic 1.0
Amazing patterns
This program uses simple mathematical algorithms to create beautiful and colorful images, called Plasmas. Change the algorithm to create different patterns.
• Choose the starting iteration
• Control the number of iterations
• Use as a screen saver
• Create Dark Plasmas
(Application by Christopher Lee Chin)

ShopKeeper
Manager
Program interface
Use this program to access SK AutoBill, a business module included in this Volume. The modules are a series of interconnected applications for businesses. This interface is built around the belief that all information should be in one database, but each department should only have access to relevant information.
• Single click access to other modules
• Centralize password maintenance
• Simplifies database management
(Application by ShopKeeper
Software; Password is mn)

SK AutoBill
Billing system
If you bill set amounts at regular times, you can use this billing module. It automatically generates bills and recurring costs. Great for businesses involved in leasing or renting. Use this module with ShopKeeper Manager, included in this Volume.
• Batch printing
• Import and export data

- Print packing slips
- Set billing frequency

(Application by ShopKeeper Software)

StateFacts 2.1
Learn U.S. Geography
Do you know the capital of Ohio? How about the Wyoming motto? This great program teaches interesting facts about each U.S. State, including size, population, area, state bird, motto and more.
- Extensive help
- Test your knowledge once you have learned the facts

(Application by Donald A. Fuller, Jr.)

Swoop 1.0.2
Save the planet
It's up to you to save the planet from an alien invasion force. This is a fast and furious arcade shoot 'em up.
- Choose from five weapons
- Beautiful 3D graphics
- Heart-pounding soundtrack
- Extensive gameplay
- High score list

(Application by Ambrosia Software)
