```
--------------------------------------
REM WINSTALL.INF file for ACTION ENGLISH (c)
REM --------------------------------------

[The title of your application]
$TITLE=ACTION ENGLISH:  Grammar Master Version 1.1 Shareware

[Default target directory]
$TARGET=C:\ACTION

[Disk space needed for the installation - in bytes]
$SPACE=348000

[Any temporary extra disk space needed while installing - in bytes]
;$SWAP-SPACE=0

[Files to be copied; "$disk 1 =" to "$disk 45 ="; you can use wildcards]
[file specs should be separated with a semi-colon]
$DISK1=*.*

[uncomment this line to turn on disk verification]
;$VERIFY-INSTALL-DISKS

[Files to be installed to subdirectories under DEST directory tree]
[Max=45 lines; 14 file names on each line, separated with semi-colon; no wildcards]

[Files to be installed to Windows directory]
[Max=1 line; 14 file names on each line, separated with semi-colon; no wildcards]

[Files to be installed to Windows SYSTEM directory]
[Max=1 line; 14 file names on each line, separated with semi-colon; no wildcards]
;$SYSDIR=

[Files to be installed to TEMP directory]
[Max=1 line; 14 file names on each line, separated with semi-colon; no wildcards]
;$TEMPDIR=

[Files to be replaced without warning if older versions already exist]
[Max=20 lines; 14 file names on each line, separated with semi-colon; no wildcards]

[Default Program Manager group name]
$GROUP=ACTION ENGLISH

[program(s) to create Program Manager icons for; MAX=45 icons in all]
[format= CommandLine;Icon Title;Group Name]
[Group Name is optional - if none, the one in $GROUP will be used]

$ICON=$DEST\ACT.EXE;Action English
$ICON=$DEST\READ.ME;Readme File

[*******************************************************]
[*** NOTE: EVERYTHING FROM HERE IS TOTALLY OPTIONAL *****]
[*******************************************************]
```

[Program(s) to execute as part of the installation; separated with a semi-colon]
[install will *try* to wait for them to terminate before continuing]
;$PRE-EXEC=

[Files to delete after completing installation]
[up to 20 files, each on a separate line]
[here, we're cleaning up our INSTALL files from the TEMP directory]

[Program(s) to execute after completing installation; separated with a semi-colon]
;$EXEC=

[uncomment this line for a maximized main window - and no "banner"!]
$WINDOW=MAXIMIZE

[uncomment this to use a 16kb buffer for copying the files]
;$COPYBUFFER=16384

[comment this to use a WHITE background color for the dialog window]
[valid values are 0 to 4]
$WINDOW-BACKGROUND=1

[comment this to use a WHITE background for the dialog text]
[3 RGB values, or 1 long integer value
$TEXT-BACKGROUND=192,192,192

[comment this to NOT paint the background of the "percent" dialog]
$PAINTDIALOGS

[uncomment this line to automatically set the check box for PROGMAN group]
$SETCHECKBOX

[uncomment this line to disable the final "installation completed" dialog]
;$NO-END-DIALOG

[uncomment this line to disable the dialog that offers to add the target]
[directory to the PATH statement in AUTOEXEC.BAT]
$NO-PATH-DIALOG

[comment this line to disable the small "percent" meter for individual files]
$SHOW-FILE-PERCENT

[comment this line to disable logging for the UNINSTALLER in UNINSTAL.LOG]
$MAKE-UNINSTALL-LOG

[uncomment these lines for user selectable install options]
[max= 10 options; format = title;disk space needed (in bytes)]
[the figures are added to the $SPACE line above]

[these lines are the files that make up each user selectable option]
[each option can use up to 10 lines to list its files, and each line
[can list up to 30 files; max = 200 characters per line]
$OPTIONAL1=INSTALL.EXE;UNINSTAL.EXE;CTL3D.DLL

[these lines are for the "BANNER" window]
[the font to use; I am using True Type Times New Roman]
$BANNER-FONT=TIMES NEW ROMAN

[make sure this is small enough for those using 640x480 displays]
$BANNER-FONT-SIZE=30

[message must be short enough to fit on the screen]
;$BANNER-MESSAGE=

$BANNER-TEXT-COLOR=$00FFFF00
$BANNER-TEXT-BACKGROUND=0,0,0
$BANNER-WINDOW-BRUSH=255,0,0

[I am not using any bitmap! so I use a non-existent file name]
$BITMAP=nobitmap

[**]
[*** these lines are for version checks on shared files ****]
[**]

[uncomment this line to enable version checking on non-shared DLLs]
;$CHECK-MY-DLL-VERSIONS

[this line stipulates the headings of the file version numbers]
$VERSION-INFO-TITLE=File Version

[your explanation or recommendation when a copy of a shared file]
[already exists]
$VERSION-INFO-MESSAGE=You SHOULD click on "NO" if the target file \n is NEWER than the
source file.

[your message when we can't successfully install a shared file]
$VERSION-COPY-ERROR-MESSAGE=Please copy it later (after closing Windows) \n.A
temporary copy of the file exists as

[uncomment this line to force older files to be overwritten without warning]
;$FORCE-OVERWRITE-OLDER-FILES

[uncomment and put any final message to be displayed to the user]
$FINAL-MESSAGE=Click on the ACTION icon in the group Action English to begin the program.
If you clicked on the abort button, you must reinstall the program.

[uncomment and use this line to send a mouse click to any of]
[the three push buttons; 1=Start Install; 2=Abort; 3=Help]
;$AUTO-CLICK-BUTTON=3
$ICON=$DEST\READ.ME;Readme File
