

Gestalt Definitions

Note: This is simply a list of all the Gestalt Selectors currently registered on this machine. The format is:

Selector = HexValue BinaryValue

The most complete source for the meaning of these is the Gestalt Selector List published by Rene Ros. You can obtain more information from the following web site:

<http://www.bio.vu.nl/home/rgaros/gestalt/>

Many thanks to Rene for all the work that he has devoted to creating and maintaining this list
