

Font Definitions

Note: Fonts are listed by font family names. If you have members of a font family in more than one suitcase, TattleTale does not gather them together. If you see a font family listed more than once, you should physically gather all of the members into one suitcase and eliminate any size/style duplicates.

- Font Family Name = Name
 - ◊ Font Family ID# = Number assigned to font family
 - ◊ Type /Size [Style] = Type is either BM(BitMap) or TT(TrueType). If the Type is BM, then there is an associated /Size expressed in points. The [Style] can be P (Plain), B (Bold), I (Italic), U (Underline), O (Outline), S (Shadow), C (Condensed), E (Extended) or combinations thereof.
 - ◊ File Name = The name of the file in which the font family is located
 - ◊ File Integrity = If Checking is on in TattleTech menu, is file damaged
 - ◊ Path Name = The location of the file
